## Watchful Waiting on Two Sides of Western Front

"All is quiet"—but western front foes maintain keen vigilance. British censor's caption on above picture said it shows German officers watching Allied forces from Siegfried Line observation post.

Recent heavy blizzards in France snowed under many of the front line defences, and here are Tommies of the British Warwickshire Regiment out stringing additional barbed wire entanglements above the snow-level. Photo passed by British censor.

## Sheepmen Here to Discuss Problems

Sheepbreeders from many parts of British Columbia gathered at the Parliament Buildings this morning for their annual meeting. Directors who prepared the agenda, are shown above, from left to right: George Dalziel, Denman Island; J. S. Graham, Keremeos; Robert Heron, Kamloops; S. H. Baker, secretary, Kamloops; J. B. Munro, Deputy Minister of Agriculture; Wm. Harrison, president, Pritchard, and Len Hoover, Kamloops.

## Final Bulletins

### No Tax Increase

VANCOUVER (CP)—On the eve of presenting preliminary 1940 estimates to the city council, Alderman John Bennett, chairman of the civic finance committee, this afternoon said there should be no increase in Vancouver's tax rate in the coming fiscal year.

Other aldermen expressed agreement as they prepared for initial discussion of the budget tomorrow morning.

### Blast Kills 8

BOGOTA, Colombia (AP)—Eight persons were killed and 13 injured today in an explosion which destroyed a warehouse adjoining the national munitions factory on the outskirts of Bogota.

### 'Stalin Line' Now

LEEDS, Eng. (CP)—The Yorkshire Post reported today that while Germany is helping Russia fortify Black Sea ports, the Russians are busily building a "Stalin Line" of fortifications along the border between German and Soviet-occupied Poland.

### Morgans Incorporate

NEW YORK (AP)—J. P. Morgan called in newspaper reporters today to announce in person that the banking firm of J. P. Morgan & Co., founded by his father, would give up the partnership firm it has had for 80 years to become a corporation.

### Casgrain Honored

OTTAWA (CP)—Hon. Pierre F. Casgrain, Speaker of the House of Commons during the life of the 18th Parliament, 1935 to 1940, has been appointed a member of the King's Privy Council for Canada. It was announced from the office of Prime Minister Mackenzie King today.

There have been many rumors that Mr. Casgrain might be appointed to the cabinet as Secretary of State—a portfolio which has been vacant since the death of Hon. Fernand Rinfret last summer.

### Italian Ship Mined

LONDON (AP)—The Italian freighter Gorgio Olsen sank off the British east coast yesterday after striking a mine, Reuters News Agency reported tonight. The vessel carried 32 officers and men whose fate was not known immediately.

A small empty lifeboat from the ship was picked up two miles off the British east coast tonight, Reuters said, and a coastal lifeboat was searching for survivors.

### Only Propaganda

LONDON (CP)—Prime Minister Chamberlain told the House of Commons today that the alleged report of the secret sitting of the House of Commons, which appeared in the Hamburger Fremdenblatt, was "not based on any authentic information," but had been "put together" purely for propaganda purposes.

The secret sitting of the British Parliament was held in December to discuss war problems, mainly questions of munitions supply. The German newspaper's alleged account of the proceedings was published the following day.

## Blizzards Lash Eastern Coast Of Canada, U.S.

HALIFAX (CP)—A blizzard swept in from the Atlantic over Nova Scotia today, driving shipping to cover, impeding highway traffic and grounding airplanes throughout the province. Regular Canadian Airways airmail flights to and from Moncton, N.B., were canceled.

NEW YORK (AP)—Lashing gales at sea brought a new menace to life and property today in the wake of winter's heaviest snowstorm which left 36 known dead, scores injured, and drifts piled high throughout the eastern United States.

The weather bureau in Washington sent out a bulletin warning that a storm of "great intensity" was raging in a focus about 150 miles east of Nantucket, Mass.

Hearts overtaxed by shoveling snow or battling through snowdrifts accounted for a majority of the storm fatalities, with hard-hit Pennsylvania registering eight deaths, upstate New York eight, New Jersey eight, New York city six, Maryland three and New England three.

In metropolitan New York an official fall of eight inches was recorded. Although the major force of the storm, which came as a Valentine's Day gift from the south, had blown itself out to sea, high winds still harassed shipping in inland coastal waters.

A United States coastguard cutter, a fireboat and a police launch struggled for more than an hour in the ice-choked Hudson River before finally retrieving seven derelict lighters which broke away while loading a liner.

## J. ROOSEVELT ASKS DIVORCE

LOS ANGELES (AP)—James Roosevelt, film executive and son of the United States President, filed suit for divorce today. His complaint charged desertion. It said Mr. Roosevelt and the former Betsy Cushing of Boston and New Haven were married June 4, 1930, in Brookline, Mass., and separated November 1, 1938.

The complaint also stated they have two children, Sara Delano, aged seven, and Kate, aged four. Mr. Roosevelt asked only for a divorce and "such other relief as may seem equitable."

Mr. Roosevelt, who is 32, came here a year ago to become a vice-president of the Goldwyn film company. He recently gave up the Goldwyn vice-presidency and formed his own company, Globe Films. He now is preparing his first production.

MOTHER KEEPS CHILDREN  
NEW YORK (AP)—Betsy Cushing Roosevelt issued a statement today through her attorney, Basil O'Connor, disclosing a settlement agreement had been made with her husband, James Roosevelt, under which she is to have custody of their two children.

She also disclosed she will bring a cross action against him in California.

O'Connor was formerly President Roosevelt's law partner.

## Chiang's Hopes Rise

## Japan's China Drive Seen Finally Bugged

By CLARK LEE

SHANGHAI (AP)—Foreign military sources said today they saw unmistakable signs that Japan had reached the limit of her ability to win and hold Chinese territory.

In their view, the Japanese "have stopped winning the war without achieving their objectives" and now are incapable of striking an effective blow to China's resistance.

The invaders' strength is so scattered over thousands of miles of China that their punch has lost its snap.

These statements were made in comment on the Japanese proclamation yesterday urging Generalissimo Chiang Kai-shek to surrender. These foreign sources regarded it as a significant admission that Japan already has made her maximum military effort.

The part of the proclamation declaring that Japan will not extend her operations further "but will await your offensive" they interpreted also as a confession that the invaders were unable to carry out their oft-repeated vow "to crush Chiang even if we have to pursue him to Tibet."

### SEEK FACE-SAVING WAY

Through the proclamation and Japanese Premier Admiral Mitsuoka's statements to the Diet, it appeared to foreign observers that the Japanese would be more willing to deal with Chiang if a face-saving formula could be found.

One expert who has followed the fighting since the first shots in July, 1937, declared that "from a strictly military point of view the Japanese have almost shot their bolt and have stopped winning the war."

The Chinese have not started to win but, in his opinion, their chances of ultimate victory are improving. If Chinese morale stays up and China's resistance continues, he said, there are growing signs the Japanese will find they have "tackled a task too immense for their human and economic resources."

The military developments of the past year, and especially of the past three months, are partly the basis for this judgment.

While a proclamation has come from the Japanese, Gen. Chiang's government has given evidence of its determination to continue the fight by adopting plans to float munitions and reconstruction loans.

The proclamation, issued by Japan's south China command, claimed the Japanese now had won "sufficient areas in China for establishment of a new order in east Asia."

"Supply routes to Chungking (the Chinese capital) have been cut and rapid progress is being made in formation of a new central government in China under Wang Ching-wei," the proclamation said. "Therefore in the future we will not expand our operations, but will await your offensive. In case you adopt this latter plan, we will resort to necessary tactics and add more pages to the war annals of the world."

### JAPANESE RETREAT

HONGKONG (AP)—Chinese dispatches today said the Japanese forces in Kwangsi province, south China, had continued their withdrawal southward and the Chinese vanguard had reached a point only 14 miles north of Nanning, main Japanese base.

The Chinese reported that a Japanese regimental commander, Col. Yamamoto, was killed in fighting north of Nanning.

The Japanese claim they merely are returning to their base according to plans after delivering a smashing blow to a Chinese force of some 300,000 men in Kwangsi province, killing about 50,000.

The Chinese reported a brisk battle on Tungshan, one of the main islands off the Fukien province coast, where the Japanese landed early this week.

## Start Ships Next Month

Actual construction work on the first of the six anti-submarine vessels ordered by the War Supply Board from local shipyards will be started late next month, it was indicated this morning by Yarrows Ltd. and the Victoria Machinery Depot Ltd., which will share the contracts.

Deliveries of steel from the east will largely determine the date when keels will be laid down at the shipyards here. Within three or four weeks from now it is probable that steel will be delivered on the coast and immediately afterwards building activity should be under way, according to the contractors.

Inquiries at both Yarrows and the Victoria Machinery Depot elicited the information that twin shipbuilding ways would permit the construction of two vessels simultaneously at both plants. In the interval preparation would go ahead in the shops for the third ships, which would be started as soon as the first had been launched.

This means that four 1,000-ton subchasers will be under construction at the same time in the two yards.

### NINE TO TEN MONTHS

It is figured that the construction of the first vessels will take from nine to ten months, provided no unexpected delays occur, and in that case the initial launchings should take place about the end of the year.

The contract calls for the delivery of the ships in 1941.

Yarrows will build the three ships awarded to the firm on the established shipbuilding site at Lang Cove, where the mine-sweeper contract was carried out last year. Ways to handle two vessels will be built alongside each other at this point with the assembly shops immediately adjacent.

The Victoria Machinery Depot plans to build twin ways contained within the company's Bay Street plant fronting on the upper harbor.

When the local shipyards opened this morning there was a large line-up of men seeking jobs at both plants.

Hundreds of skilled and semi-

## 178,000 Share In Big War Loan Of Dominion

OTTAWA (CP)—Canada's recent \$200,000,000 war loan, first loan of the second Great War, was distributed to more than 178,000 individual subscribers, Finance Minister Ralston said in a statement today.

"The wide distribution of this loan is a really remarkable achievement on the part of the Canadian people," said Col. Ralston. Combining new money to a total of \$200,000,000 and conversion of March 1 maturities of other loans to the extent of \$50,000,000, the total of the loan reached \$250,000,000.

Final details of distribution are not yet available for all subscriptions received through dealers and there are many cases where a single subscription was put in by an employer on behalf of a large number of his employees, Col. Ralston said.

For these reasons the returns received from investment dealers, stockbrokers and chartered banks who were acting as authorized agents for the loan, substantially underestimate the wide distribution of the loan received.

Analysis of the returns received, however, showed 178,363 separate subscriptions with an average of \$1,327 each. Of this total number of subscriptions, 172,331, or 96.6 per cent, were for amounts from \$50 to \$5,000, with an average of \$664.

Allotments on subscriptions from private individuals exclusive of corporations and dealers accounted for \$157,821,950, or 63 per cent of the total amount of the loan.

## Apple Sales Sought

KELOWNA, B.C. (CP)—The Okanagan apple industry appears to face the prospect of having a surplus of 360,000 boxes this year for which there is no immediate outlet, D. McNair, sales manager of British Columbia Tree Fruits Limited, said today.

The unsold crop on hand at the beginning of this week was 324,229 boxes.

Fruit shippers here are hoping the federal government will allocate a substantial portion of Nova Scotia's unused export quota to British Columbia, which recently was allowed to ship 30 cars under this arrangement.

According to advices reaching Kelowna, Nova Scotia has an unused quota of some 300,000 boxes.

## Pay-off Men Hunted

MIAMI, Fla. (AP)—The Herald said today that J. Edgar Hoover, Federal Bureau of Investigation chief who arrived here last night, is directing an inquiry into alleged pay-offs to officials by lawbreakers.

"He has plunged headlong into tracing 'pay-offs' here," the paper said, "presumably in the hope of income tax prosecutions, the weapon used in the Kansas City federal onslaught."

skilled men will be required during the course of the contracts, but the full quota cannot be absorbed until the building plans have been further advanced, it was stated at the plants.

## Many Volunteer In Britain to Aid Finland's Army

LONDON (CP)—A steady stream of volunteers called at the Finnish recruiting station in London today as a result of the government's sanction of general enlistment for the Finnish armed forces. The Associated Press said some were in Canadian and British uniforms.

There was no hint from official quarters, the Associated Press said, as to what ruling would be made on British and Canadian soldier volunteers.

Among the uniformed men were members of the British Expeditionary Force, who said they were home on 10-day leaves from France and wanted to enlist for service in Finland.

According to the Associated Press, the Canadians included T. S. Laird, who came over as a private with the First Canadian contingent. He explained: "They told me I was too old for the Royal Air Force this time, so I've enrolled for the Finnish air force."

Among the doctors conducting medical examinations of volunteers was Viscount Dawson of Penn, physician-in-ordinary to the King.

The volunteers are expected to depart in groups as soon as transportation can be arranged.

The government was authoritatively reported to be considering special governmental machinery to expedite the issuance of permits in large numbers for the departure of the volunteers.

Men of any age may volunteer, this source reported, since no age limit has been set thus far. Previously it had been understood that only men over 27 or otherwise outside Britain's conscription calls could volunteer.

By WADE WERNER

HELSINGFORS (AP)—Finland called another class of reserves to the colors—the second in 24 hours—today as furious fighting on the Karelian Isthmus was reported to have cost the invading Red army 3,500 dead.

The class of 1896—men 43 and 44—was called up for service against the Russians who sent a squadron of 27 planes dropping on Helsingfors today to cause the capital's first air alarm in weeks. No bombs were dropped, however.

Instead they were reported to have roared to the town of Riihimäki, about 20 miles north of Helsingfors and bombed it heavily, starting numerous fires.

A Finnish communiqué described heavy fighting on the Isthmus front, now in its 15th day of battle, and declared Russian attacks had been repulsed on numerous sectors.

A thousand Russians were killed while attacking over the ice at Muolajaervi and 2,500 in a series of blows near Taipale, at the eastern end of the Isthmus front where the two armies have been engaged for two weeks.

### TANKS TURNED ROUND

In one of the attacks the Finns said they captured two tanks turned them around and put them into immediate service against the Russians.

Thirteen Russian tanks were said to have been wrecked in the attacks.

On the Summa sector, where the Russians have concentrated

## Spec Echo in British Port

## Plymouth Roars Welcome to Exeter, Sea-fight Victor

LONDON (AP)—Welcoming home victors in one great sea battle, Britain today counted four more German submarines as victims of the past six days of warfare.

Winston Churchill, First Lord of the Admiralty, voiced the nation's welcome to the light cruiser Exeter which steamed into Plymouth scarred by her victorious fight with the German pocket battleship Admiral Graf Spee off Montevideo December 13.

An Admiralty statement said two more German submarines had been sunk, making four in less than a week, and an unofficial total near 50 for the war. (See story on Page 2).

A cheering crowd at the historic port of Plymouth roared a welcome to the Exeter, which had been repaired at Port Stanley, Falkland Islands, for the long voyage home.

Also on hand to pay tribute to the crew of the 8,390-ton warship were Admiral of the Fleet Sir Dudley Pound, First Sea Lord, and Sir John Simon, Chancellor of the Exchequer.

The Exeter had dropped anchor in the sound early in the morning, and the people of Plymouth and Devonport were advised of her arrival time by local broadcasts. A tug led the way into port.

It was a happy homecoming for members of the crew, called back to duty last August only three days after their first leave in England had begun following a duty tour of nearly three years.

The Exeter arrived just one day after the British public had learned from the Admiralty that the 32,000-ton battlecruiser Repulse, which the Germans claimed to have sunk, had returned to port after 130 days of service at sea. The Repulse today was at Plymouth for refitting while her crew was on leave.

Under the Exeter's new coat of

some of their heaviest blows against the battered Mannerheim Line, continued enemy attacks were repulsed, as were other assaults northeast of Lake Ladoga, the communiqué said.

A supply column of 100 vehicles was reported destroyed on the Ladoga front.

In the Kuhmo sector farther north Russian detachments were reported dispersed, "more than 500 killed," and quantities of equipment captured.

A Finnish communiqué today said Finns had shot down 16 Soviet planes yesterday and that Russian fliers, fighting among themselves, downed one of their own aircraft.

Finnish front line troops reported they saw Soviet planes suddenly turn against some of their own bombers. A few moments later a Russian bomber crashed behind the Finnish lines.

### SKIS NEEDED

PARIS (CP-Havas)—The Touring Club of France today appealed to owners of skis to contribute them to the Finnish army. All skis donated will be turned over to the Finnish legation, the appeal said, declaring the matter was extremely urgent.

paint, scars from the Graf Spee's shells still were visible.

Mr. Churchill, wearing a yachting cap and a double-breasted blue jacket of naval cut, waited two hours for the Exeter's arrival.

Smoking his ever-present cigar, he doffed his cap at the roar of the ship's salute, and then went aboard to congratulate the officers and men while the band played Rule Britannia.

In his speech of welcome to the officers and men of the ship which bore the brunt of the Admiral Graf Spee's fire and suffered the heaviest casualties, Mr. Churchill said:

"We are especially able to congratulate you on the fortune which enabled you to fight an action in the old style instead of the long and intricate struggle with mines and U-boats which your comrades in the flotillas have been waging here."

"This great action will long be told in song and story. When you came up the river this morning, when you entered the harbor, there were crowds cheering on the banks. One might almost have thought that there were other spectators, great shades of the past carrying us back to Drake and Raleigh, to the great seadogs of old times."

"If their spirits brooded on this scene you would be entitled to tell them: 'We, your descendants, still make war, and we have not forgotten the lesson you taught us. Many months, perhaps some years, of long and anxious struggle lie before us, and we face the future in a spirit of serious resolve.'"

"You all have lost good comrades and shipmates who are not here this day. But you are here and your gallant ship is back to cheer the hearts of your fellow countrymen. You have come back with a work notably and faithfully accomplished in a worthy cause, with your honors gathered and your duty done."

## MAN EATEN BY HIS OWN DOG

The gruesome discovery of a man whose body was half eaten by his dog after he was drowned in a boating accident was told in radio advices received by B.C. Police headquarters today.

The tragedy was found on Gill Island by Ed. and Joe Clifton, Herbert Ridley and Simon Reese Jr. of Hartley Bay, who found half the body of Harry Scott, a handlogger, when they went to visit him. The four men were en route to their trap lines at Pin Island.

They found also Scott's boat washed up on shore and the dog alive and active.

The radio message to headquarters said "there can be no doubt but that Harry Scott's body was partly eaten by his dog."

The remains are being taken to Prince Rupert where an inquest will be held.

## Hunted By Police

VANCOUVER (CP)—Police are seeking the driver of an automobile which struck 69-year-old Will Williams last night, inflicting minor head injuries and bruises.

## Col. Rookes Crompton Dies in England

LONDON (CP) — Col. Rookes Crompton, 94, known as the father of the electrical industry in Britain, died today. He installed the first electric lights in Buckingham Palace and Windsor Castle.

He was twice president of the Institute of Electrical Engineers, and in 1933 was elected a Fellow of the Royal Society.

During the last war Winston Churchill instructed Col. Crompton to inquire into the possibility of building land ships, a suggestion which led to the construction of the first tanks.

## ANNOUNCEMENTS

Dance, Friday, February 16, Stacey's Hall, Sidney, Len Acre's orchestra, 9.30 to 1.30; refreshments; admission 50c. Auspices North Saanich Badminton Club.

Don't patch that sheet! Save work and help China. Bandage rolling will stop if linen supply does not increase. Please bring old and new cotton, flannel, linen and left-over wool to Committee for Medical Aid for China, 617 Broughton Street, E 4725, 2 to 5 p.m. Wednesday and Thursday mornings.

## Britain Protects Neutral Ships Against Nazis

LONDON (CP) — Great Britain was said authoritatively today to be prepared to offer protection to all neutral shipping passing through her contraband controls whether bound for a British port or elsewhere in view of Germany's latest pronouncements on sea warfare.

A spokesman asserted Britain views the German claim of the right to sink any neutral ship even though proceeding between neutral ports if it goes through the Allied contraband control as "a boast of the illegal policy of sea warfare which Germany already is pursuing."

This spokesman said the British view is that it is unlawful to sink such a merchant vessel at any time. Britain is not surprised by the Berlin announcement, he said, since "we have known that the Germans have been sinking the merchant ships of neutrals indiscriminately without either regard for the lives of the men aboard or destination."

## NAZIS BACK DOWN

BERLIN (AP) — German spokesmen today sought to dispel fears precipitated by yesterday's references to United States shipping submitting to British contraband control by saying no suggestion had been made that American ships under certain circumstances might be sunk without notice.

They described the German attitude as being that the German naval forces have the right to prevent the entry of neutral ships into British ports and that this right exists even if the neutral ships are forced into such harbors by warships.

"American vessels are prevented by American law from touching English ports," one said, "so the greatest danger is obviated at the outset."

"In connection with the reported sinking of the Netherlands liner Burgerdijk when it was entering the Downs, it is stated that legally the same rule would apply if an American ship willfully or in custody of the enemy were to enter Gibraltar harbor."

"But that is merely a hypothetical discussion and in no event was there a suggestion that an American ship might be sunk without notice—which raises altogether different rules of sea warfare."

## PAYMENT DEMANDED

AMSTERDAM (AP) — The Netherlands announced today it would demand "full indemnification" from Germany for the torpedoing and sinking last Saturday of the 6,533-ton Holland-America liner Burgerdijk. Mr. official announcement said:

"Preceding a written protest, the Netherlands government already has advised the German government of serious objections against the torpedoing of the Burgerdijk, for which full indemnification will be demanded."

(The Burgerdijk was en route to Rotterdam from New York when she was torpedoed 15 miles south of Bishop's Rock, off the southwestern tip of England. Spokesmen in Berlin yesterday sought to justify the sinking as legal on the grounds that the vessel was heading for an English port.)

## BRITISH AVOID TERROR BOMBING

LONDON (CP) — Prime Minister Chamberlain today rejected a suggestion in the House of Commons that Great Britain might resort to bombing of civilians "for the purpose of mere terrorism."

Captain A. H. M. Ramsay, Conservative, asked him to assure the House the government would not approve recommendations made to it to abandon the principles which led it to denounce the bombing of civilian populations in Spain.

"I am not aware of the suggestion to which the honorable member refers," said Mr. Chamberlain.

"The policy of His Majesty's government in this matter was fully stated by me on September 14, 1939. In the course of that answer I said that whatever might be the length to which others might go, His Majesty's government would never resort to deliberate attacks on women and children and other civilians for the purpose of mere terrorism. I have nothing to add to that."

## 4 Poles To Be Executed

BERLIN (AP) — A special court in Posen, the portion of Poland annexed to Germany, imposed death penalties today on four Poles charged with killing German civilians before the German army arrived last September.

## 'Awkward Squad' in Finland

This "awkward squad" of ski tyros is part of the first contingent of army volunteers from Canada and the United States to arrive in Finland. They are being instructed by a Finnish expert. Photo taken by Eric Calcraft, NEA staff photographer in Finland.

## Torpedoed Crew Reaches England

LONDON (CP) — Seventy-two survivors of the Sultan Star, 12,306-ton freighter which was torpedoed while en route to Britain with a cargo of Argentine frozen beef, landed today at a west coast port. Capt. W. H. Bevan said only one man was lost and two injured.

An Admiralty communiqué last night said:

"Since the sinking of two U-boats by one British destroyer was announced on February 9, three large British merchant ships, namely, the Gretafield, 10,190 tons; the British Triumph, 8,501 tons; and the Sultan Star, 12,306 tons, have been sunk, but two of the U-boats concerned have also been destroyed. In the case of the sinking of the Sultan Star the U-boat only survived his victim by a half hour."

The communiqué followed by a few hours a promise by Winston Churchill, First Lord of the Admiralty, to the House of Commons that within a month or six weeks "a very great measure of protection will be afforded" to Britain's seamen, especially in the North Sea.

It was reported here today that owners of the 1,503-ton Norwegian steamship Elka were said to have been notified the ship was sunk on a voyage from Spain to Norway and that a submarine had landed two survivors at Wilhelmshaven, Germany. The Elka, carrying a crew of 18, had been unreported since January 26.

Reuter's news agency reported from Oslo that the Danish ship Martin Goldschmidt, 1,095 tons, was sunk off the west coast of Scotland, and only five of her crew of 20 had been picked up.

The Admiralty also announced today 21 officers and men were "missing and presumed killed" in sinking of the trawlers Bowen and Fort Royal by German air raiders five days ago.

## GERMAN REPORT

BERLIN (AP) — A communiqué from the German high command today said:

"February 14 was a particularly successful day for German sea war, especially submarines. On this day alone, ships of a gross tonnage of 58,000 were sunk."

## RUMANIA URGED TO JOIN ALLIES

By DANIEL DE LUCE  
BUCHAREST (AP) — Former Premier Iuliu Maniu, leader of the Rumanian peasant party, urged King Carol to abolish all political parties except his own Party of National Revival, said today Rumania must come out in favor of the Allies if the nation is to find salvation.

In an interview he attacked the King's present policy of attempting to strike a balance between the economic demands of Germany and the Allies.

Rumania's only salvation, he contended, is for her to be openly in favor of Great Britain and France and to return to democratic parliamentary life.

Maniu, whose peasant party formerly drew as much as 40 per cent of the votes in national elections, declared there are only two alternatives to a return to free institutions:

1. Bolshevism.  
2. Partition of Rumania by foreign powers.

The peasant leader said Rumania could not agree to the slightest change in her frontiers to meet Hungarian, Bulgarian or Russian claims.

Maniu said "the great majority of Rumanians certainly hope for an Allied war victory."

The former premier, although entitled to sit in the Senate, has been denied entry because he refused to wear the yellow and blue uniform of King Carol's Party of National Revival. The government censor since has forbidden even the mention of Maniu's name in the newspapers.

## Chambers Praises Canada's Effort

GABRIOLA, B.C. (CP) — Alan Chambers, Liberal candidate in the Nanaimo riding for the forthcoming federal election, opened his campaign here last night with an address in which he declared Canada's war effort is the paramount concern of the Liberal party.

If the government of Prime Minister Mackenzie King is returned to power, he said, it will promote national unity in order to maintain that effort at a maximum.

Mr. Chambers said that on the economic front Canada is in an excellent position to fulfill the demands of the war markets. This position had been improved by an agreement between British Columbia lumber interests and the railways for the shipment of timber across Canada for transshipment to the United Kingdom.

He said the King government had "ruthlessly pursued" war profiteering by forming the War Price Control Board at the outbreak of the war and by the excess profits tax.

To avoid piling up a war debt, the government was trying to pay as it went, Mr. Chambers continued. If it had to borrow it would be at a low rate and call for a favorable money market as it might develop.

Mr. Chambers said criticism regarding the letting of contracts by the government was directed generally at five or six contracts made before the outbreak of war. Today, he added, a group of experts were letting contracts amounting to \$4,000,000 a week without criticism.

The Liberal candidate suggested a scheme of national superannuation where by other people would be retired and their jobs opened up to younger folk. He said it was a youth employment measure, which he believed should be adopted immediately in order to meet a depression which might follow the war.

## NEW FISHERIES DEPUTY MINISTER

OTTAWA (CP) — Dr. Donovan Bartley Finn, chairman of the recently created salt fish board, today was appointed deputy minister of fisheries. He succeeds W. J. Found, who retired on superannuation a year ago.

The new deputy minister was born in Hendon, Eng., in 1900, and came to Canada in his youth and completed his studies at the University of Manitoba, where he took his degree as bachelor of science in 1924. He went to England and took postgraduate studies at Cambridge some years later, and obtained the degree of doctor of philosophy.

Dr. Finn served on the fisheries research board of Canada for three years, then joined British Columbia Packers Limited, Vancouver, to organize their scientific department.

Following his postgraduate studies Dr. Finn returned to the fisheries experimental station. He was transferred to the Atlantic station at Halifax in 1934, and remained there until his appointment to the salt fish board last July.

Dr. Finn is a fellow of the Canadian Institute of Chemistry. At present he is in Haiti investigating the possibilities of wider markets for Canadian fish and fish products.

## Income Tax Total Up in January

OTTAWA (CP) — Total income tax collections for the 10 months ended January 31, 1940, amounted to \$124,510,856, a decrease of \$9,441,001 from collections in the same period the previous year.

Collections for January, 1940, were \$5,882,215, an increase of \$1,157,784 over collections for January, 1939.

## Ontario Reports Deficit, Slashes Budget Costs

TORONTO (CP) — Ontario was presented this afternoon with its first budget of the present war, which helped swell to nearly \$4,500,000 a deficit for the fiscal year ending next March 31.

It was the sixth provincial budget presented to the Legislature by Premier Mitchell F. Hepburn, who reported an increase of \$24,482,239 in the gross debt; pledged strict economy to help the Dominion in its war effort, and declared the people of Ontario were prepared "to stake the last dollar and furnish the last man, if need be, so the world may be rid of this constant threat of war."

The previous budget had estimated a surplus of \$150,000 for the fiscal 12 months, but unanticipated expenditures, some due to the war, had helped increase the deficit. No reference was made to new taxation, except a suggested change in the corporation tax for which a bill already has been presented in the Legislature. The increased corporation tax, a temporary measure, was estimated to raise treasury department revenue by more than \$5,500,000 annually.

## CUTS CIVIC SUBSIDIES

Reduction of 40 per cent in the estimate for direct relief was announced by the Premier, who also revealed that subsidies to municipalities would be reduced by one-half mill. The subsidy, increased ½ mill last year to 1½ mills, will be set back to one mill.

With economies planned, the premier, who also holds the portfolio of provincial treasurer, budgeted for an estimated surplus of more than \$350,000 for the new fiscal year ending March 31, 1941. Ordinary revenue for the coming 12 months was estimated at \$89,051,209 with ordinary expenditure at \$88,694,970.

## ESTIMATES CUT

The revenue estimated for the coming year is more than \$9,000,000 less than the \$98,456,000 for the closing fiscal year (10 months actual and two months estimated). Budgeted expenditure for the coming year is shown at \$88,694,970, compared with the current year's budgeted expenditure of \$102,900,929, a decrease of \$14,205,959.

"Far be it from me," said the premier, "to paint any dark picture. I realize, as do we all, that we are in the second phase of the Great War. There is no need to emphasize this point today but, realizing the responsibility that rests on Canada, a responsibility that must be shared largely by this province, it is the considered opinion of the government that Ontario must give leadership to the rest of the Dominion."

"This richest, most prosperous, most progressive part of the Dominion must not betray any faltering in this time of testing."

Increase of \$24,482,239 during the current year in the gross debt was offset by capital assets in highways, public buildings and public works amounting to nearly \$26,000,000, he said. The increase in the gross debt from October 31, 1934, to March 31, 1940, amounted to \$81,488,530.75, but during this period the province had increased capital assets by \$146,308,803.76.

To promote the tourist traffic, the government will establish a publicity bureau to "counteract any unfortunate propaganda or misunderstanding of war conditions in Canada."

## Dancers Applaud

PHILADELPHIA (AP) — For their fortitude in braving one of the century's worst blizzards, actors applauded a small but determined audience last night. To the 100 men and women who had bucked snowdrifts and lashing winds to attend the performance of Ted Shawn, dancer, said in a curtain speech: "Audiences like you are courageous and receptive." Then he and the entire cast applauded.

## Death on Train

KINGSTON, Ont. (CP) — Stricken with a heart attack while on a Canadian Pacific train between Brockville and Kingston, Michael Harris Wilkes, 55, publicity manager for United Artists Corporation, died yesterday before medical help could be summoned.

LONDON (CP) — Four firemen were injured today in a blaze at a metal plant in Hounslow. Several explosions, believed due to chemicals, occurred while the fire was in progress. Magnesium stocks in the factory caught fire and heavy blue fumes swirled around the entire district for nearly half a mile.

## Tweedsmuir Service in London

LONDON (CP) — A memorial service for Lord Tweedsmuir will be held at Westminster Abbey, February 22. A representative of the King will attend.

Officers of the Canadian Active Service Force stationed in Britain will join with representatives of the state and the late Governor-General's friends and relatives in paying solemn tribute to the service.

It was learned that Lord Tweedsmuir's daughter, Mrs. Brian Fairfax-Lucy, has canceled plans to go to Canada and that no other member of the family will leave England to join Lady Tweedsmuir in the Dominion.

## SERVICE IN MONTREAL

MONTREAL (CP) — A simple committal service, contrasting with the solemn grandeur of the state funeral in Ottawa, marked the final rites in Canada for Lord Tweedsmuir, who for four years and three months was this country's Governor-General.

An hour after the arrival here last night of a special train from Ottawa, where earlier in the day the nation had paid its final tribute, the body of Lord Tweedsmuir was cremated in a small grey stone building overlooking Mount Royal Cemetery. The ashes will be taken to the United Kingdom, where they will be interred.

Only Lady Tweedsmuir, her son Alastair, Sir Shuldham Redfern, who was the Governor-General's private secretary, and one or two members of the vice-regal party attended the service that preceded the cremation.

Rev. George Donald of the Presbyterian Church of St. Andrew and St. Paul officiated at the committal service.

## ATTACK ON PRESS CHARGED IN U.S.

CHICAGO (AP) — Representative Bruce Barton, New York Republican, charged today that some persons in the federal trade commission and the United States Department of Agriculture seek control of the press and radio through destruction of national advertising.

In an address to the Union League Club, he asserted the federal trade commission was planning an inquiry into national advertising in its study of distribution costs.

Barton said such an inquiry constituted a danger to business and democratic institutions because "there are men in the federal trade commission and the department of agriculture who hate national advertising, who want to destroy it because national advertising supports the free American press and the free American radio."

"If they can destroy national advertising they know they will end the independence of the press and radio," he added.

## December Relief Below Year Ago

OTTAWA (CP) — Persons on urban and agricultural relief in Canada during last December totaled 625,000, an increase of 6.9 per cent from last November, the labor department reported today. However, the total of December, 1939, compared with the same month of 1938, showed a decrease of 30.3 per cent, the department said. Compared with the same month of 1937 the latest figure was down slightly more than one-third.

LONDON (CP)—Ronald MacDonald Hutchison, 64, who gained wide English stage fame under the name of Harry Tate, died yesterday. Hutchison made his stage debut as a mimic in 1899 and achieved immediate success. He appeared in scores of comedies in the next 43 years and made Canadian and Australian tours. He entered the movies in 1932 and appeared in several English pictures.

### Party to Attempt To Scale Mt. McKinley

FAIRBANKS, Alaska (AP)—Frank T. Been, superintendent of the McKinley National Park, said today Piero Chiglione, noted Italian mountain climber, is expected to arrive here late in March or early in April at the head of an expedition that will attempt to scale Mount McKinley, the highest peak in North America.

Been has been arranging for the expedition with Cliff Highby of Evanston, Ill., who represents the Italian climber. Chiglione is seeking to have Harry P. Karstens of Fairbanks, who is one of the few who reached the summit, to join his attempt.

Some scientists believe that acacia gum is produced when the trees are wounded, whereas others believe the gum forms when the trees are attacked by parasites.

### New Loan System Planned in Alberta

EDMONTON (CP)—Extension of the provincial treasury branch service to provide making of loans will be authorized in an amending bill to the Treasury Act which Provincial Treasurer Low will introduce at the present session of the Alberta Legislature. It has been learned on reliable authority.

It was also learned that the amending bill will include provision for purchase of certain goods, coming within scope of the 3 per cent bonus, on the installment plan. Details of this phase of the amendment were not immediately available.

Put into operation in September, 1938, the treasury branch system, as part of the provincial government's interim program, included no provision for making loans.

It is expected that, with the province applying for a provincial bank charter, expected to be granted at the parliamentary session in April, the granting of loans under the treasury branch system will be possible.

### French-Canadians Say No Conscription

QUEBEC (CP)—A document issued by the Bloc Universitaire, French-Canadian Student group, says:

"We wish nothing better than Canadian unity. We are doing everything to bring it about. We have accepted, although it was costly to us, participation in the present European war on the specified condition that conscription would not be established. This solemn pact was unanimously ratified by the House and the Senate. We have done our part and our hand remains outstretched.

"But hereinafter let it be well understood that Canadian unity would forever be endangered by conscription.

"For us patriotism embraces Canada, the whole of Canada," it said. "And we do not feel that need to say 'Canada before all.' We say 'Canada—and that is all.'"

The document, approved by the executive committee of the bloc, which has sections in Quebec, Montreal, Ottawa and St. Boniface, Man., was described as a "declaration by French-Canadians on conscription."

### Australia to Speed Air Force Recruiting

SYDNEY, Australia (CP)—While the war cabinet in an important review of Australia's war effort this week considered the dispatch of a second division of the Australian Imperial Force overseas, it is understood the latest suggestion from Britain is that the Commonwealth's most important task should be enlistment of men for training under the Empire air scheme, which is planned to give the Allies strong superiority over the Germans in the air.

It was intimated here that Australia and Canada together are expected to furnish more than half the air personnel needed, besides building aircraft for themselves and other parts of the Empire.

Another patrol in the same sector, described as evidently seeking prisoners, skirmished with French advance guards. When the fire died down, the French said they found several German dead in No Man's Land.

The army's morning communiqué this morning briefly reported:

"Local activity of contact units east of the Saar River at night last yesterday."

Press accounts from the front sector occupied by the British today reported that Tommies manning an outpost during the night suddenly saw an image of the Virgin Mary appear in the clouds with her arms outstretched in entreaty.

The commander sent out a patrol which returned with the information the Germans were projecting the image from a machine on the ground.

**NAZIS' REPORT**  
BERLIN (AP)—The German high command's communiqué today said: "As a result of patrol activity south of Saarbrücken, numerous prisoners were taken."

### Throats Blessed To Ward Off Colds

TORONTO—The feast of St. Blasius was observed in all the Catholic churches of Toronto, and thousands of persons had their throats blessed after the morning masses and at special exercises in the afternoon and evening.

The blessing of throats is one of the most colorful in the Catholic church. Two candles are bent somewhat in the shape of a horseshoe. These are lighted and as the crowds of people kneel along the communion rail they are held under the chin of each while the priest invokes St. Blasius to keep the recipient of the blessing free from colds, throat trouble, pneumonia and such ailments.

One of St. Michael's Cathedral priests explained: "It is a pious custom, evidencing the faith of the person blessed, and there is no doubt it is effective. Probably 75 per cent of the Catholic people of Toronto receive the blessing on the feast-day of St. Blasius."

St. Blasius was put to death in the year 316 A.D. He is the patron of wool-combers for the singular reason that one of the instruments used in his torture was a wool-comb.

### NEW CABINET HEAD FOR BULGARIA

SOFIA (AP)—The cabinet of Premier George Kiossevanoff resigned today and King Boris immediately called Professor Bogdan Philoff, Minister of Education, to form a new Bulgarian government.

Kiossevanoff, a close friend of the King, had reorganized his cabinet for the eighth time in less than four years only last October 23, retaining the portfolios of premier and foreign minister himself.

Kiossevanoff's resignation was caused by his bitter fight with Ivan Bogranoff, Minister of Agriculture, reportedly over relations with Soviet Russia.

Bogranoff, a popular member of the Kiossevanoff government, was said to favor further tightening of relations with Moscow.

The two men were known to have quarreled also over domestic policy with Bogranoff demanding a return to democratic parliamentary rule, which Kiossevanoff opposed.

Philoff, also a close friend of King Boris, is a professor of archeology and president of the Bulgarian Academy of Sciences. Political circles expected Kiossevanoff's foreign ministry portfolio to go to Ivan Popoff, Bulgarian minister to Yugoslavia.

This was interpreted as meaning the King desires further to intensify Bulgaria's close relations with Belgrade.

### Too Many Cocktails, Girl Driver Fined

SEATTLE — Declaring Miss Cecile Gilmour, 26, Seattle society girl, had too many cocktails before she took the wheel of the car, Judge William F. Devin convicted her on charges of reckless driving and failure to have an operator's license, fined her a total of \$55 and suspended her driver's license for a 30-day period.

Traffic Investigators R. C. Burr and C. K. Waitt arrested Miss Gilmour, after the automobile she was driving crashed into the parked automobile of George Freck.

The investigators testified they questioned Miss Gilmour at Virginia Mason Hospital where she drove William A. McConnell, 30, her companion who was injured in the accident.

Miss Gilmour, according to Officer Burr, had been drinking too much to drive a car and was "belligerent" at the hospital.

The young woman admitted she had drunk "two cocktails" before dinner at the Seattle Tennis Club early Sunday evening and "one highball" later at a social function she and McConnell attended.

### C.S.A. Still in Field

HALIFAX (CP)—The Canadian Students' Assembly will continue to be represented at Dalhousie University. According to C.S.A. supporters, the action of the university's Student Council in separating from the C.S.A. two weeks ago did not ban continued activity of a C.S.A. group on the campus. The group expects to provide its own financial support without official recognition from the Student Council.

### Duff Cooper Picketed

SAN FRANCISCO (AP)—Fifteen pickets appeared last night to protest a lecture by Alfred Duff Cooper former First Lord of the British Admiralty.

The pickets, carrying banners calling the address "British propaganda," paraded up and down in front of the opera house while the audience gathered. They left before the lecture was over. There were no arrests.

### Special Lookouts

LONDON (CP)—Special lookouts for Irish Republican Army bombs were on duty in London railroad stations and post offices today as the result of time-bombings in Birmingham last night.

Two boxes exploded in Birmingham, three others were discovered, and police there informed Scotland Yard they had discovered plans for bombings in London.

The hanging of two I.R.A. members in Birmingham eight days ago for a fatal bombing at Coventry aroused much feeling in Eire.

### WIDER SPY HUNT

PARIS (AP)—A more vigorous hunt for German agents still in France was urged today by Henri de Kerillis, National member of the Chamber of Deputies. De Kerillis returned to this, a favorite editorial theme, in his newspaper L'Epoque following announcement by military authorities that a young German baroness who fled to Germany last July would be tried in absentia for espionage.

Baroness von Einem, young and pretty, is alleged to have been the brains of a huge pre-war Nazi spy ring. Several persons accused of aiding her, including two employees of Paris newspapers a senate stenographer and an Austrian, Leo Hirsch, were arrested last summer.

One of the newspaper employees, Julien Poirier, has died in prison and the others may receive prison sentences if the charges are proved. The baroness, if convicted, may be sentenced to death, the sentence to be carried out if she ever falls into French custody.

Military investigators submitted their findings in the case of the baroness and the others to the civil courts yesterday, and De Kerillis followed this up today with a contention that high society spies and propagandists are still at work in France.

### Tweedsmuir Letter Published in London

LONDON (CP)—The Earl of Bessborough received a letter from Lord Tweedsmuir the day his death in Montreal was announced, expressing regret over the prospect of leaving Canada, where "I have got my boots down pretty deep."

Lord Bessborough, succeeded by the late Lord Tweedsmuir as Governor-General, has disclosed a passage of the letter in a letter to The Times, London.

Speaking of his approaching return to Great Britain Lord Tweedsmuir had written:

"I do not believe in any Governor-General going on too long. Also my health needs a little attention. I begin my melancholy farewell tour of the west at the end of March. I shall find it hard to leave in many ways . . ."

In an appreciation printed in the same paper, Violet Rosa Markham recalls conversations with Lord Tweedsmuir at Quebec in which he declared:

"Canada never can compete in numbers with the United States. Her job is quality. Not quantity; not a vast population, but a race of elect and splendid men and women who will be light-bearers in the world, and such men and women can be trusted to use for the right ends her incredibly rich natural resources."

The writer of this appreciation is the widow of Lt.-Cl. James Caruthers and was representative of the Canadian government on the governing body of the International Labor Office at Geneva in 1923.

### Boeings Not to Move

## What Do You Read Between the Lines?

Between the lines of every advertisement you see, you can imagine these words:

"Thousands of people had to believe in this product—AND BUY IT—before it was ready for advertising!"

The fact that a product is advertised regularly means that a lot of people buy it regularly. The fact that a storekeeper or manufacturer will join his name with it in public proves that he thinks it is good, honest value.

Time was when the slogan, "Let the buyer beware," governed buying and selling. But advertising has reversed that. Today it reads, "Let the seller beware!"

For if his goods don't measure up, he loses out to advertised products that do!

## RELIEVE COLDS WITH CUNNINGHAM REMEDIES

Cunningham's cold remedies have the highest reputation for the quality of their ingredients and for their effectiveness in quickly relieving troublesome colds. Their general public acceptance is proven by the fact that they are selling in increasing quantities year after year.

Trained pharmacists prepare all Cunningham remedies and other Cunningham products with the skill which comes only from long experience.

## In the Near East

IN SPITE OF MORE OR LESS AUTHORITY opinion that neither Russia nor Germany will attempt military aggression in the Near East, recent developments, such as the concentration of more than 500,000 troops in the region—coupled, incidentally, with Turkey's removal of Nazi workmen from important public and semipublic works—continue to cast their shadows. Official Turkish opinion is said to be reflected in an article published today by the French-language newspaper *La République d'Istanbul*, which submits that although war in that area seems unlikely for the moment, "it is only natural that peoples who value their health pay attention to the probability of its eventual coming." In effect, the tone of the newspaper's comment rests on the argument that Great Britain and France would scarcely be supporting a great army in the Near East unless they had a fairly good idea it might, sooner or later, be fully employed.

It is obvious, of course, that Turkey occupies the principal strategic position at the east end of the Mediterranean, while Iran is the key state on the Persian Gulf as far as totalitarian schemes may be considered a threat to Afghanistan—and, consequently, to India. As we said in these columns several weeks ago, moreover, the value of Turkey to the Allies would largely depend upon the amount of sympathy and practical assistance the Ankara government obtained from London and Paris. Recent arrangements speak eloquently of the manner in which a propitious atmosphere has been generated by both British and French statesmen—much to the disgust of Nazi Ambassador Franz von Papen. More purchases of Turkish goods, the extension of large credits, assistance in the form of technical advisers, as well as the fine co-operation which France's General Weygand and Britain's General Wavell have manifested in military affairs in the former land of the Sultans—these indicate more than may appear to the casual observers of the moving scene.

Turkey's action in the face of reported Nazi plots against her state should not be endowed with undue significance. But it would seem to suggest that the practical sympathy and assistance of which she stood in need when she aligned herself with Great Britain and France has been forthcoming in suitable proportions. Nor was it surprising that the Ankara government should have demanded hard-and-fast terms as the price of her benevolent non-belligerence—recently described by Foreign Minister Sukru Saracoglu as a neutrality which is not fighting for the time being. The Turks were greatly impressed by the fate of the Polish army, the swift effectiveness of the German mechanized forces, remembering, too, the devastating results of an air force which commanded overwhelming superiority. She may not yet feel that she has as good a chance against an opponent as she would like. In any event, however, such deficiencies as may still be apparent are being quickly repaired by the imaginative diplomacy which chose action for its handmaid.

## Sordid Argument

OUR MORNING CONTEMPORARY SAYS "the government at Ottawa has boasted that many prominent men of the country are giving their services in the war on bureaus, commissions, committees, boards, etc., for patriotic motives alone; that, in fact, they are known as \$1-a-year men." It is then argued: "The impression sought to be conveyed is rather destroyed when it is learned that these men receive from \$15 to \$20 a day for expenses. In reality what they should be known as is \$4,000 to \$6,000-a-year men."

Apart from the gratuitous reflection on the good faith of men who have no other interest than that of serving their country in the hour of its dire need, it is to be noted that the morning paper quotes "a Montreal correspondent" whose comments it describes as apposite. He says:

"It appears to me that a good many of the names mentioned are of men who could well afford to do without the money paid by the government. Most of the names mentioned are of men who are already drawing large salaries of their own or who have large incomes quite independent of any moneys they receive from the government. At a time such as this, surely, men who have any sense of responsibility should be aware of the importance of being honest with oneself as well as with the nation."

The relevance or otherwise of the Montreal correspondent's observations need not be seriously considered. Their emphasis by our contemporary, however, is unlikely to gain favor with the leader of the opposition forces. "Fightin' Bob" Manion knows that many fine Canadian citizens are making real contributions in time and talent at no little pecuniary loss to themselves. Parochial politics to them is like water off a duck's back.

In a Canadian Press dispatch from Ottawa the other day, incidentally, Mr. Woodward of Vancouver and Mr. Aubrey Davis of Newmarket, Ont., both members of the War Supply Board, were cited as two of those not accepting living allowances or expenses.

Germans have been warned to eat less if they want the Reich to win the war. If any more is deducted from their rations, it will have to be figured in abstract mathematics.

## Berlin and The Anzacs

GERMANY'S SEMIOFFICIAL DIPLOMATIC-POLITICAL Korrespondenz has taken notice of the arrival in Egypt of troops from Australia and New Zealand and has expressed the following profound opinion as to their employment:

"The assignments to be given these troops has not been stated by Eden (Mr. Eden is in Egypt) or otherwise made public, but the use of New Zealand troops in the last war betrays the direction of their contemplated thrusts—it is in the southeast."

It is also explained by the commentary mentioned that the plan to be carried out, if circumstances become opportune, is to make the Allied guarantees to Rumania and Greece and the alliance with Turkey a pretext for attacks—on an eastern front.

This is very clever of Korrespondenz. But it betrays a contemplation of the new developments which is not without apprehension. Apart from the fact that "an eastern front" would probably find troops from the Antipodes fighting side by side with Turkish soldiers—not against them this time—it may indicate to Hitler, if not Stalin, who is busy elsewhere, that aggression in the southeast or in the Near East might be fraught with consequences as serious as a mass attack on the Maginot Line.

Of one thing the head of the Nazi Reich may be assured, however, is that the Allies will not create an eastern front—unless circumstances in the west might so determine. On the action of Germany, alone or in active military collaboration with Russia, will depend the use to which the great army now conveniently grouped on the shores of the Mediterranean is put. Meanwhile it is there to protect that seaway and to see that British policy for the Persian Gulf is not seriously menaced.

## Fewer Books

WAR IS BRINGING ABOUT CURTAILMENT of book publishing in England. It is announced in London that each publisher will receive less than two-thirds of the amount of paper he received last year, and that they plan to use smaller type, narrow margins and inferior paper, and to dispense with dust covers—known as "jackets."

The paper shortage is one answer to the British book publishers' problem of "too many books." Many in the trade have repeatedly expressed the belief that fewer and better books should be the rule; but, so far, none has had the courage to inaugurate such a policy. Despite the disproportionate population totals, Britain annually produces very nearly one-third more books than the United States, the latest figures showing 16,000 British as compared with 11,000 American. The paper restrictions will lessen the disproportionate production figures.

It will not be good news, of course, for British booklovers to learn that they are in for inferior paper and narrow margins. However, if the present war has the same effect upon writers that the last one had, cheap paper may really be a blessing. In the last war, paper was of such poor quality that most of it has already fallen to pieces; but the quality of most of the stuff printed during the war was equally low; hence there was no great loss to literature.

## 'National' Government Prospects

From Toronto Saturday Night

Dr. Manion has not, up to the moment of writing, enlarged upon his statement that he will, if returned to power in the March election, constitute a "national" government to carry on the affairs of this country during the war. It is probably better for the party which he leads that he should not enlarge upon it, for any attempt to sketch the details of such a project would inevitably suggest the grave difficulties which surround it, and might even have the effect of discouraging those of his followers who could reasonably expect a seat in a purely Conservative cabinet but who might be called upon to stay out of it in order to make room for the representatives of other parties who would be necessary in order to give it any claim to the title of "national." As it is, without detail and adornment, the proposal may make some appeal to those who think vaguely that a government in which various different kinds of political views are represented will be able to put more energy and more intelligence into the country's war effort than a government composed of members of one party alone.

Saturday Night is entirely unable to share that feeling. If Dr. Manion should find himself in a position to form a government after the election, we trust that he will form one composed of members of the Conservative party; that is to say, of persons accustomed to working together for common political ends, and animated by a common idea of what is in the best interests of Canada.

We do not see much chance of any substantial desertions from the Liberal party even if it were reduced to the status of an opposition. Ancient and historic parties, with good prospects of a return to power after a few years, are not so easily broken up in Canada as all that. And without a substantial adhesion of Liberals, Dr. Manion's party could not possibly describe itself as a National party. There is, however, no copy-right on the name, and the Conservative party has changed its name so frequently in the last 40 years that it will not be particularly surprising if it decides to change it again. It will still, however, be the Conservative party.

## Parallel Thoughts

But he perceived their craftiness, and said unto them, Why tempt ye me?—St. Luke 20:23.

If there were no evil in ourselves, there could be no temptation from without, for nothing evil could seem pleasant.—F. M. Crawford.

## Loose Bits

By BRIAN A. TOBIN

### CANADA IN LONDON

WITH THE THIRD CONTINGENT of the Canadian Active Service Force safely arrived in England, to augment units of the First Division undergoing training at Aldershot, the sight of Canuck soldiers on leave in London streets ought to become increasingly common.

What do the boys find prepared for them when they arrive at the Hub of the Empire to spend a day or two of relief from training camp routine?

Plans initiated months ago by Canadian organizations in London ensure a hearty reception. Recreation rooms, hostesses, sight-seeing and other entertainments are features of the arrangements made to welcome the troops.

Result of the work of a voluntary committee under the chairmanship of the Hon. Vincent Massey, Canadian High Commissioner, the Beaver Club, a recreation centre for Canadian troops on leave in London, is expected to open its doors about February 17. More than 10,000 (\$44,000) has been spent on reconstruction and a further \$5,000 on furnishings and decorating the quarters to provide a meeting place that will not be excelled by any.

A library, dance hall, theatre, dining-room, soda fountain and snack bar have been provided. There will be a post office branch and provision for a special cable service to Canada.

A council chamber affords facilities for officers to address large bodies of troops.

CANADA HOUSE, adjoining Trafalgar Square, and standing next to the building which contains the London headquarters staff of the C.A.S.F., will naturally be the first point of call for many of the visitors. The reading-room provides stationery, information, mail facilities and newspapers from all parts of Canada.

Here they will learn of the various entertainment features that have been organized for their benefit.

At British Columbia House, under the direction of William A. McAdam, acting Agent-General for B.C., the reading room has been transformed into an attractive lounge for non-commissioned officers and men.

A billiard table occupies the centre of the floor. Darts, the traditional old pub game, which is at present enjoying favor as one of the most popular games in English homes, is another attraction.

Green curtains cover the sandbags which protect the windows—a constant reminder of London's air raid precautions.

Here the men may write home, listen to the radio, obtain maps and information about London, and perhaps most important of all, read all the home news in the latest British Columbia papers.

Here also they will encounter other young Canadians in the uniform of the Royal Air Force; lads who during the last two years have gone over from all parts of Canada to join up with British squadrons.

British Columbia will be well represented. Notice boards about the lounge supply news items of interest to the visitors, as well as advertisements offering reduced charges to uniformed men at many of London's movie theatres.

Large pots of tea and boxes of cake make their appearance each afternoon, in charge of a committee of British Columbia women. The ladies will arrange billets for lads on leave in London, and will see to it that they do not lack entertainment or opportunities to see the sights.

One the next floor up a similar room has been prepared for officers. On the ground floor a dry canteen is run by a ladies' committee.

Mrs. Vincent Massey, wife of the Canadian High Commissioner and honorary president of the Canadian Women's Club located in London, is heading a War Emergency Committee for the purpose of organizing the wartime efforts of Canadian women there.

Membership in the Canadian Women's Club, normally about 300, jumped to nearly double that number as women with Canadian interests volunteered their services for the war.

The special committee arranges for the participation of Canadian women in wartime clerical, medical and transport work. They also organize handwork, supplies, packing of hampers and extension of hospitality to Canadian soldiers.

Under their auspices a recreation room for officers has been opened in the Canadian National Railways Building, opposite Canada House. These facilities will be extended as the need arises.

The King George and Queen Elizabeth Victoria League Club for Service Men From Overseas, operating in Bloomsbury and recently visited by Mrs. Neville Chamberlain, wife of the Prime Minister, will be another rallying place for visiting Canucks.

In addition certain residential clubs are offering their hospitality to visiting Canadian officers. Organizations such as the Royal Empire Society and the Overseas League are providing special memberships for the duration of the war.

## CAN'T EXPECT EVERYTHING

From Richmond Times-Dispatch

At the special premiere of "The Grapes of Wrath" the usual blah-zay first-nighters were thrown into a ditch by the entrance of Hedy Lamarr. Hedy, they say, looked more gorgeous than any woman has a right to—on or off the screen. J. P. McEvoy and his wife, Peggy, overheard a woman spectator meow: "She's beautiful, but I hear she's dumb." "What do you want?" asked J. P. "a sunrise that sings?"

## THE CENSOR'S CUT OFF THE MAILING LIST

From Port Erie Times-Review  
Perhaps he hasn't noticed yet, but if this war lasts long enough the press censor at Ottawa may find out that he has been taken off the mailing list of the Times-Review. The reason: Non-payment of \$2, the subscription price.

Back in the early part of October we got a curt request from the censor to put the "Examiner of Publications, Room 201, Connaught Building, Ottawa," on our mailing list. We did so, but not thinking that he expected to get our paper free—no more than he would presume to go into a dry goods store a few doors from our office and demand a bolt of cloth without payment—we sent him a bill for a year's subscription. He has not paid. He has not given us any reason or excuse for not paying. He did not even acknowledge receipt of our bill.

So from now, the Examiner of Publications is off our mailing list. If he suspects us of being so indiscreet as to publish such a bit of news as "Private Petroffsky in camp Somewhere in Ontario has written to his sweetheart, Susie Schultz, in Port Erie, that he expects to sail from Halifax next March or April for somewhere in Europe," he will have to come to our office and examine our files which are open to him as they are to everyone.

Or if he is concerned about doing his job economically he might have one of his bright young men go to the library of either the House of Commons or the Senate, where every newspaper in Canada is sent as soon as published, to check on us.

The people who work 50 hours or more a week to make the Times-Review are just as anxious as Ottawa for Canada to put its full strength into the British Empire effort to defeat the wickedness of Hitler and Stalin, but they have their grocery bills to pay and there is the rent each month.

## NATIONAL GOVERNMENT BAIT

From Winnipeg Free Press

It will seem to most people highly unlikely that Dr. Manion is going to coalesce with either the C.C.F. or the Social Crediters or with Mr. Herriedge of the New Democracy who denounced the Conservative party platform at the convention which elected Dr. Manion as leader. This leaves as potential cabinet members the provincial followers of Mr. Bracken and Mr. Hepburn, and of these two the invitation is very obviously being extended to the latter. What Dr. Manion's statement, therefore, means is that he wants to form a government composed of the followers of himself and Mr. Hepburn to whom he is now opening the door. The strategy behind the move is to split beyond all hope of reunion the Liberal vote in Ontario and thus ensure himself a sweep in that province.

## TRANSPORTATION DIFFICULTIES

From Toronto Star

The French view that Germany is 50,000 railway cars short of wartime requirements is not far-fetched. She was short at least 10,000 cars of peacetime requirements. The freezing of the canals has increased the strain upon the railways. Only 280 freight cars have reached Germany from Rumania since the war began. Germany has been holding the freight cars of other nations and trying to buy or borrow cars from all sides, but with little success. Her difficulties of transportation are a serious hindrance to her war efficiency.

To use motor equipment more freely would aggravate the shortage of gasoline. It is doubtful that Germany could carry on intensive air warfare from more than a few months at a time because of the scarcity of gas and grease, particularly gas of high octane quality such as airplanes require for maximum performance at high altitudes.

## CRUELTY TO A GOLDFISH

From Our Dumb Friends

A man has been fined in England for cruelty to a goldfish. The man went away for a week's holiday and forgot all about the fish. The Royal Society for the Prevention of Cruelty to Animals inspector saw the goldfish lying in the bottom of a pool of stagnant water. He forced a window, entered the house, gave the fish food and fresh water. A mag'sistrate ordered the confiscation of the fish, and the defendant was fined, also, five shillings for cruelty to three canaries that had been left to die of starvation.

## BUT IT'S EASIER ON THE EYES

From Bracebridge Gazette  
It's strange, but it's the style-room as would run a locomotive's headlight; then shade the lamps till they give no more light than a flock of lightning bugs in a 10-acre field.

## FARTHEST NORTH POST OFFICE

From Canadian Resources  
Craig Harbor, Northwest Territories, Canada, is the most northerly post office in the British Empire.

## COAL STOKER OWNERS

will say "Foolish Question," when you ask "Does a Coal Stoker pay?" It pays first in a lot of unpleasant labor saved. It pays because you can use lower-priced coal. It pays because it will actually save you its cost in a very short time! Ask us to prove it with actual figures from the experience of Victoria owners.

## KIRK'S 1239 BROAD G 3241

## HE KNOWS ASSASSINATION FROM BOTH SIDES

From Japanese-American Review  
"Wang Ching-wei, who is about to form a new central government in China, is truly a great man and a leader of great sincerity."  
This is the impression of H. T. Brundage upon arrival from a special tour of the Far East. "Mr. Wang is a rich man," Mr. Brundage said in speaking of his sincerity. "He is a scholar who loves books and poetry and a quiet life. If he wanted to, he could have become Chiang Kai-shek's ambassador in any country he chose and thus lived quietly with his books and poetry."

"But he preferred to face the danger of assassination in his devotion to the new government. Mr. Wang is not a stranger to assassination, having once plotted one himself, and having been injured in a couple of attempts on his own life."

## SOYA BEANS TOP WHEAT AND CORN

From Pennsylvania Farmer  
War in Europe and in the Orient has created a broad export demand for soya beans which has helped to put and keep their price above the prices of wheat and corn. Would anybody have believed all this 20 or even 10 years ago?

## WASTE

To the Editor:—In reply to Mrs. R. M. Inglis' letter, I will enumerate the uses to which wasted materials can be put as follows: Discarded rubber tires, jar rings, boots, gloves, hotwater bottles, can all be rejuvenated into usable rubber for making waterproofs, ground sheets and like articles of coated-rubber cloth.

Old newspapers are used to pack by Orientals, or for the manufacture of paper, into which also goes cardboard cartons and magazines.

Old leather can be used for the manufacture of an imitation leather which is sometimes better than the new.

Tin cans when clean are worth about \$1 per 200 pounds for the reclaiming of the tin, and the manufacture of various chemicals such as tennite (an article which can be used to burn ice in ferams) and melt metals.

Old glass is used for making abrasives for match boxes, glazes for china, etc.

Old aluminum can be melted and used again.

Potato peelings are made into dextrine (a gum for stann's etc.) and glucose for sweets, etc.

Feathers are used to make ammonia, if in sufficient quantity. Rags are used to make paper, etc. Wool rags are used to make a kind of cloth called shoddy.

Old wire and old enamelware are used as old iron and a base for new glaze.

The only objection is that here in the west the capital is not available to start all the above possible industries and the so-called protective tariff limits the amounts of the waste quantities to be imported in order to make the industries profitable.

WILLIAM A. LAMING.  
617 Michigan Street.

## Better English

By D. C. WILLIAMS

1. What is wrong with this sentence? "We are going to Pittsburgh inside of a few days."  
2. What is the correct pronunciation of "unlearned"?  
3. Which one of these words is misspelled? Abstinence, abscond, abolition.  
4. What does the word "intrinsic" mean?  
5. What is a word beginning with tr that means "fleeting; not enduring"?

## Answers

1. Say "We are going to Pittsburgh within a few days." 2. Pronounce un-lur-ned, accent second syllable, and not un-lur-ned. 3. Abscond. 4. Pertaining to the nature of a thing or person; inherent. "Some men classify objects by color and size, others by intrinsic likeness."—Emerson. 5. Transitory.

## City Relief Budget Down

When the city estimates committee starts work on the 1940 departmental budget of the city welfare office, it will be dealing with an expenditure estimate \$12,800 below actual costs in 1939.

The preliminary departmental draft was completed this week and forwarded to D. A. Macdonald, city comptroller-treasurer, for review and inclusion in the general preliminary budget for the entire city.

E. G. Snowden, city relief officer, today emphasized the fact figures prepared by his office were of a tentative nature.

"We never know when drastic

changes in conditions may affect the employment market. Neither can we say, from one month to the next, what rearrangements may be made by federal and provincial governments. Our figures are compiled largely on a basis of last year's expenditures. Activity in shipbuilding this year should offset a drop in defence work and may materially check the number returning to the relief rolls," he said.

The department's budget for 1940 lists total costs to the city at \$128,328. Last year the estimate was \$188,735, and the actual gross expenditure, including government contributions, was \$291,164. Of that latter sum the governments refunded approximately \$150,000, leaving costs to the city at roughly \$141,164. That figure is \$12,836 above the \$128,328 expenditure estimate for this year. The chief reason for the reduc-

tion in cost figures was reported to be the revision by the superior governments of their contributions to city relief. During January, February and March of last year, the three highest months of 1939, the government paid 60 per cent of the costs of unemployed. After the third month the percentage was changed to an 80-20 basis and payments were made to the city for cases previously declared entirely city charges. This year, subject to possible revision, the 80-20 arrangement will continue.

Through a reduction of staff and lower allocation for supplies, the estimate for wages and supplies this year is down \$3,000. Reduction in the number previously listed as 100 per cent city charges cuts the city grant list \$4,800 to \$1,200. Costs of convalescent homes has increased

\$2,500 to \$13,500, according to the estimate. Other items remain substantially the same.

### Duncan Hospital

DUNCAN—The annual general meeting of the King's Daughters Hospital was held in the I.O.O.F. Hall with E. W. Neel in the chair. The financial report was presented and Mr. Neel gave a resume of the year's activities. There were three vacancies on the board and three nominations were received. Major-General Sir Ernest Walker, Mayor E. W. Lee and J. Nicholls were elected. Four other directors were due for re-election which took place as follows: Mrs. T. Kingseote, Arnold Fleet, J. K. S. Horsfall and J. L. Maitland. The question of the new ambulance was discussed and left for the board to take action.

## Minister Reviews Medical Scheme

Hon. George M. Weir, Provincial Secretary, commenting on the co-operative medical service plan advanced by the British Columbia College of Physicians and Surgeons, said the scheme was all right as far as it went, but plans of this kind have never yet solved the real health problem.

Dr. Weir, who sponsored the inoperative state health insurance scheme in B.C., compared higher rates in the doctors' plan with the government's proposal. "Any honest effort to provide more adequate health services for our people—50 per cent of whom are unable to pay for such services—should be examined solely on its merits," Dr. Weir states.

"Speaking generally, what is the arithmetic of the situation? According to the 1931 census, 56 per cent of the wage-earners of Canada received \$1,000 or less a year. Also, it is generally admitted that the wage earner and his dependents should be covered in any adequate plan of health insurance.

"The British Medical Association has strongly urged that dependents be included in the British plan.

EXAMPLES GIVEN

Consider several examples under the doctor's plan. We assume here that dependents would be covered.

"Example A—Wage-earner K. has a wife and one child. His wages are \$1,000 a year and insured benefits cover medical, surgical and hospital services.

"Wage-earner K. would pay \$54 a year under the doctors' plan, as against \$20 a year under the government plan.

"Of course, if the employer voluntarily contributed under the doctors' plan—and a number might do so—the amount to be paid by the wage-earners would be less.

"Example B—Wage-earner M. has a wife and three children. His wages are \$1,200 a year. For the same benefits as the above, M. would pay \$90 a year under the doctor's plan, as against \$24 a year under the government plan.

"In the case of the government plan the employer would be required to pay one-third of the total cost to be collected by the health insurance commission. Also the government plan would spread the cost over a larger number of wage-earners and dependents—or over 225,000 in British Columbia.

SOUND ACTUALLY

"I refrain from making any reference to the terms offered by commercial or industrial insurance companies in comparison with those offered by the above plans.

"After a thorough study of the data, two first-class actuaries—

one in Toronto and one in Montreal—certified to the actuarial soundness of the government plan. I assume the doctors' plan is also actuarially sound. The old bogey of so-called actuarial soundness need not be resurrected.

"Incidentally, it might be added that, under no state health insurance plan in any country in the world would the doctors receive as large a remuneration as under the government plan.

"Health insurance plans of a voluntary nature, such as the Greater Vancouver doctors' plan, are in effect in Toronto, in the State of Washington, and elsewhere. These voluntary plans are all right so far as they go; but never yet have such plans solved the real health problem."

School Supervisor J. B. Litch stated that previously he had received complaints from Mrs. Harrison, but as names had not been furnished it had been impossible to locate offenders.

The report of Mr. Litch showed that the total enrollment in January of all local schools was 1,137, as compared with 1,130 in January last year. Attendance was

92.91, compared with 91.33 last year.

A professional study group has been organized in the school, with teachers making a study of reading and its related problems. It will give teachers broader understanding of reading disabilities and the technique for overcoming them.

Chairman J. Barsby stated that the building committee contemplates doing permanent work towards a home economics room.

Under average conditions, an automobile travelling 50 miles an hour cannot stop in less than 243 feet.

## First Spiritualist Wedding Held In Canada

Mayell-White Nuptials Solemnized Here At Open Door Church

The first wedding ever performed in a Spiritualist Church in Canada was solemnized at the Open Door Spiritualist Church, Surrey Block, last evening at 8. The principals were Pearl Irene, elder daughter of Mr. and Mrs. Charles White, Park Boulevard, and Signalmen Bertram Ronald Mayell, 11th Fortress Signal Corps, elder son of Dr. and Mrs. Bertram Mayell, Victoria.

Rev. Walter Holder, the pastor, performed the ceremony in a setting of Japanese plum blossoms and spring flowers, arranged by girl friends of the bride. The service was choral, and during the signing of the register Mrs. Bertram Mayell, mother of the bridegroom, sang the solo, "Because." Mr. W. Gildersleeve played the wedding music.

Given in marriage by her father, the bride wore a floor-length wedding gown of white satin, with filmy tulle veil caught beneath a wreath of orange blossoms, and carried an arm bouquet of pink and white carnations and heather. She was attended by her sister, Miss Mae White, wearing a pretty frock of pink taffeta with coatee of matching pink net, and a pink floral wreath in her hair, and carrying a colonial bouquet of spring flowers.

Mr. Robert Whyte, R.C.N., was groomsmen and Mr. Conan Mayell, brother of the groom, was the usher.

After the ceremony, a reception for relatives and intimate friends only was held at the home of the bride's parents, Mrs. White receiving in a gown of rose-colored flat crepe, with green coat and hat, and a corsage bouquet of rosebuds, assisted by Mrs. Mayell Sr., gowned in black taffeta, with a black hat trimmed with a rose-shaded ostrich tip, and wearing a corsage bouquet of orchids, heather and carnations.

Later Mr. and Mrs. Mayell left for a honeymoon trip, the bride wearing an astrachan coat over her smart frock, and a hat to match. They will make their home in Victoria.

## Clubwomen's News

On Friday evening at 7.30, the Oaklands P.T.A. will present Professor Harkness in a display of magic in the school auditorium and an entertaining evening is anticipated. Films by the Scott Camera Co. will also be presented.

St. Mark's W.A. held their business meeting on Tuesday afternoon. Silence was observed for the late Governor-General. Numerous calls were reported by the social service committee. Mrs. Cartwright accepted the office of Little Helpers secretary. Money for a new book was donated to the diocesan library. A good program was promised for St. Patrick's concert, March 15, and a daffodil tea and sale of work was arranged for April 12. The meeting finished with a fine address by Rev. O. L. Jull.

The monthly meeting of the Women's Auxiliary to the Royal Canadian Navy, Esquimalt, was held on Tuesday afternoon in the Queen of Peace Church Hill, Esquimalt. Mrs. R. I. Agnew, the vice-president, being in the chair in the absence of Mrs. G. C. Jones. Before the business meeting began, a silent tribute was paid to the memory of Lord Tweedsmuir. The statement of accounts was read by Mrs. H. Kingsley, secretary-treasurer. The following articles were turned in by members: Scarfs 28, sweaters 14, socks 28 pairs, helmets 2, wristlets 8 pairs, mitts 1 pair, bodybelt 1. Tea was provided. Owing to the absence of the president, the next meeting will not be held until early in April.

DVORAK'S NIECE DIES  
Mrs. O. S. Moore, 2228 Stephens Street, Vancouver, received word last Monday of the death of her sister, Anna Dvorak Grimsion, of Lincoln, Nebraska.

Mrs. Dvorak was a niece of Anton Dvorak, the famous Bohemian composer, and widow of the late Judge Grimsion of the Supreme Court of Nebraska.

She was the first woman to be admitted to the bar in the state of Nebraska and was a Past Grand Worthy Matron of the Eastern Star. She had organized chapters from Chicago to Denver.

## Social and Personal

Mrs. D. O. Cameron, Gorge Road, is spending a few days in Seattle.

A meeting has been arranged in the interests of the Mission to Lepers for Friday afternoon at 3, in the Y.W.C.A.

Mrs. T. Soulsby, Esquimalt, who has been spending the last week in Seattle with friends, returned home this afternoon.

Mr. R. H. B. Ker, Shasta Ave., who has been on a trip to Toronto and has been visiting in Calgary on his return journey, will return tomorrow.

Mr. and Mrs. B. Baxendale, of Bamfield and their daughter, Miss Diana Baxendale, are visiting in Victoria as the guests of Commander H. W. Soulsby and Mrs. Soulsby, Monteith Street.

The Misses Grace and Hilda Hall entertained at a delightful coffee party Sunday morning in honor of their sister, Miss Edith Hall, whose marriage will take place on Saturday.

Mr. C. Rupert Wickson, Transit Avenue, Oak Bay, accompanied by his son, Mr. Walter Wickson, of the staff of the Bank of Montreal at Trail, have left to spend a holiday in California.

Rev. W. F. Doeling of Victoria, who went over to New Westminster, is now in Alberni, where today he was to officiate at the marriage ceremony of Miss Helen Elizabeth Pilley, eldest daughter of Mr. and Mrs. H. H. Pilley of Alberni, and Mr. Ernest George Llewellyn, son of Mrs. George Llewellyn and the late Commander George Llewellyn of Wales. Mr. Doeling will return to Victoria on February 20.

The Misses Louise and Olive Ormond entertained the members of the Comitas Club at their home on Quebec Street Monday evening. The guest speaker was Mr. Fred Spencer, who spoke of his travels in South America, and showed many interesting moving pictures. Those present were Mrs. W. A. Butler, Mrs. Johns, and the Misses Barbara Leigh, Pat Holden, Alma Gorton, Rene McHutchison, Verna Beek, Kitty Cave, Louise Ormond and Olive Ormond. Guests were the Misses Helen Peden and Margaret Cargill.

A meeting of the Monterey P.T.A. Study Group will be held tomorrow afternoon at 2.30 at the home of Mrs. H. S. Hurn, 1073 Deal Street. All new members are welcome.

Mrs. Dickie Bradshaw entertained last night at a delightful Valentine party at the home of her mother, Mrs. F. J. Wood, 818 Old Esquimalt Road. The party was held to honor the newly-formed Grass Widows' Club, an organization of the wives of soldiers on active service in the P.C.C.I. Court whist was enjoyed by the guests, the prizes being won by Mrs. (Doc) Watson and Mrs. George Hendy. Valentines were used on the table as place cards and a Valentine motif was used in decoration of the table, which was covered by a Madeira cloth. The centerpiece was a silver basket with red and white carnations, silver candleholders and red candles. Those

Mrs. Avis Clamitz Shulman, who will speak at the tea-musical to be held at The Royal Oak on Sunday afternoon from 3 till 5, in aid of the Hadassah Refugee Children's Fund. Mrs. Shulman was educated at the University of Cincinnati, the University of Chicago and Northwest University, specializing in literature, and has traveled extensively in Europe and the Near East. She has a wide reputation as a writer and speaker, and will give a first-hand story of conditions in Europe.

## Lady Tweedsmuir to Leave Ottawa Next Month

Will Be Much Missed For Her Many Kindly Charities

OTTAWA (CP) — It will be at least a month before Canada bids goodbye to Lady Tweedsmuir, mistress of Rideau Hall and leader in women's activities since coming to the Dominion with the Governor-General in 1937.

But with Government House in mourning for Lord Tweedsmuir, to whom Canada paid tribute with a State funeral yesterday, Her Excellency's remaining time in the Dominion will be spent quietly.

Lady Tweedsmuir left with the Governor-General's body for Montreal after the State funeral, to return to Rideau Hall a few hours later. And from her return until she takes leave of the Dominion, preparations for departure to the United Kingdom will demand most of her attention.

## HELPED PRAIRIES

Like Lord Tweedsmuir, Her Excellency's interest has been in everyday people. For instance, yesterday afternoon, at Her Excellency's direction, places were set aside in St. Andrew's Church for stenographers, switchboard operators, footmen, messengers and orderlies, whose duties made them vitally important to life at Government House.

Mainly Lady Tweedsmuir has been concerned with filling the gaps in the lives of Canadians. She sent nearly 50,000 books to homes on the prairies and in the Peace River district. A few bundles of books still remain in her Government House workroom to be parcelled off to remote districts.

## ORGANIZED SEWING

When she came to Ottawa, Lady Tweedsmuir organized a weekly sewing group to make clothes for needy Canadian families. When the war started, the group was increased to sew and knit for wartime refugees and fill shelves of the Red Cross headquarters with necessities.

That work stopped a week ago yesterday when the Governor-General in a fall at Rideau Hall, received the injury which brought his death. But it is probable that the unfinished garments will be completed before Her Excellency leaves for England.

In almost every channel of feminine endeavor, Her Excellency has played an active part in Canada. When the Governor-General made long trips across the Dominion, Lady Tweedsmuir accompanied him. She visited many organizations on her own and came to know Canada and Canadians just as he did.

Only a few weeks ago she told a women's meeting of her sorrow at leaving Canada when the Governor-General's term expired, and added, "my stay here has been made so real for me by the warmth, kindness and welcome of the people."

Esquimalt W.I. held its monthly meeting Tuesday evening in St. Paul's Parish Hall. Mrs. E. Pocock presiding. Before commencing business, members stood in silent tribute to the memory of Lord Tweedsmuir and a late member, Mrs. J. Gibson. Correspondence was dealt with, the monthly bulletin advising co-operation with institutes in England and sending them supplies. It was agreed to adopt this plan as far as possible. Mrs. E. Pocock will be attending the Children's Aid annual meeting as delegate from the institute. Members and friends will visit the Island Weavers on Wednesday, February 21, at 2.30 p.m. Arrangements were made to celebrate the birthday of the institute at the March meeting, when a social evening will be held. Five dollars was voted towards the linen shower for Solarium and a ticket purchased for T.V. Association ball and fashion show, as in former years. Sick members had been visited and flowers sent to patients in hospital. Three card games were held during the month. Refreshments were served at the close of meeting and a social time spent.

An enjoyable Valentine tea was held in St. Mark's parish hall on Wednesday afternoon, when a large gathering assembled for the occasion. The hall was daintily decorated with Valentine motifs, and the tables centred with colonial bouquets with hearts and ribbons. Mrs. C. Porter was decoration convener. Mrs. F. Harris convoked the kitchen, and a program from the eight-piece orchestra was very much appreciated. Included in the program was the Scotch lament, "Coronach," a tribute to the passing of the Governor-General.

Invited were: Mrs. (Doc) Watson, Mrs. George Hendy, Mrs. (Slim) Kemsaw, Mrs. Herbert Hipwood, Mrs. Paul Terlesky, Mrs. Jack Rennie, Mrs. Hugh Kelly, Mrs. Gordon Bell and Miss Isabel Eastick.

## Rosita Forbes to Address Club

Famous English Explorer Will Speak Here Tuesday

Rosita Forbes, internationally-known explorer, writer and lecturer, brought here by the National Council of Education of Canada, will address the Women's Canadian Club next Tuesday afternoon at 2.45, at the Empress Hotel, when her subject will be "Eight Republics in Search of a Future."

Mrs. Forbes has had one of the most exciting and interesting careers imaginable, having crossed Africa disguised as an Arab woman, gone into Asia, mapped unknown routes through the desert and also been in secret service in Syria and Eritrea. She has crossed India, Russia, China and South America. While exploring she has found time to write books and articles for the newspapers. With such a background of countries known, she should be able to give an accurate picture of the republics of South America, where she spent a year in 1932 in Brazil, Uruguay, Paraguay, Argentina, Chile, Bolivia, Peru and Ecuador, studying conditions and writing for two London daily newspapers. In 1934 she flew her own plane 14,000 miles round South and Central America, writing for the Daily Telegraph.

Mrs. Forbes is an Englishwoman and has won many honors from the geographical societies of France, England, Belgium, Holland, Sweden and Italy. Mr. Jay Pogson will be the soloist, accompanied by Mrs. C. C. Warn.

## Quadra P.T.A. Help School Milk Fund

The Quadra P.T.A. met in the school auditorium Tuesday evening with the president, Mrs. A. J. Stevenson, in the chair. Arrangements for a St. Patrick tea were left in the hands of the social committee, part of the proceeds to be used to augment the milk fund, formerly taken charge of by the Dr. O. M. Jones Chapter, L.O.E.

The P.T.A. has undertaken to provide a rural school with old magazines, which may be sent to the school as late as Friday, February 16.

Mrs. W. W. Anderson, social convener, reported that the recent reunion dance had netted \$10.54. Quadra unit of the Red Cross is working in conjunction with the Oakland unit. The rooms are open each Wednesday from 1 to 3 for distribution of work.

A smoking-stand was presented by George Green on behalf of the members to the retiring president, P. E. George, and a silver dish to Mrs. T. M. Ross, retiring secretary, and to Mrs. P. W. Jeune, retiring treasurer, for their many years of faithful services.

Several excellent musical numbers were presented by former pupils of Quadra School: Miss Elsie George, soprano solos; Miss Inez Jeune, selections on the steel guitar; Miss Catherine Denison, contralto solos; Seton Rednap and Dick Ash, piano-accompaniment selections.

For quick cough relief, try this home mixture. Splendid Results. Saves Money. Easily Mixed.

You'll be surprised how quickly and easily you can overcome a bad winter cough, when you try this well known recipe. It gives you four times as much cough medicine for your money and you'll find it very pleasant and dependable, for real relief.

Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking needed—it's so trouble at all. Then put 2½ ounces of Pinex (obtained from any druggist) into a 16 oz. bottle.

## Solarium Tea at Mrs. W. C. Nichol's

Mrs. Walter C. Nichol is opening her charming home, 1759 Rockland Avenue, for a Valentine tea on Saturday afternoon at 3.30, when the Queen Alexandra Solarium Junior League will entertain in aid of its general funds. The league, which was formed late last fall, has been doing wonderful work, and has already purchased many necessities for the Solarium as a result of its few activities.

Miss Vivian Pennock is convening the tea with the assistance of Miss Helen Eve, in charge of advertising; Miss Helen Parker, tickets; and Miss Sue Mackenzie and Mrs. J. McCannell, refreshments.

Mrs. J. D. Hunter and Mrs. Curtis Sampson will pour tea during the afternoon, and a program has been arranged in which Elaine Basanta and Keith Little will be heard in vocal solos. Tickets may be obtained from members. A special invitation is extended to the general public.

Victoria Chapter No. 25 Women of the Moose, met on Monday in the K. of P. Hall for its business meeting, with Senior Regent Matt Carter presiding. Mrs. W. Spavon reported on sick members. Three officers were installed: Mrs. A. McAllister as chaplain; Mrs. E. Van Alphen, assistant guide; Mrs. Rose Williams, argus; also initiation of new members took place. Reports were given by various committees. Plans were made for a guest tea and entertainment at the next social night, February 26. Arrangements were left in the hands of co-worker E. Clarke. A vote of thanks was extended to co-worker E. Van Alphen for the jolly evening held at her home in honor of birthdays of members. A vote of sympathy and two minutes' silence was extended to one of the members in the sad loss of her husband.

Princess Margaret Rose Lodge No. 40, Juvenile Daughters of England, are holding a birthday tea on Tuesday, February 20, in the S.O.E. Hall, from 2.30 till 5. Their annual banquet will be held in the same hall on Wednesday, February 28 at 5. Adult members wishing to attend are asked to phone E 2382 or E 6817.

The Victoria Institute rooms were gay with hearts and posies for the Valentine tea held recently by the members. An entertaining program was provided by Mrs. George Bowers and her committee, including Mesdames Fanthorpe, Jackson and Bridge, and Miss Mabel Holyoake. In tribute to the late Governor-General, Mrs. B. Noel sang one of his favorite songs, Sullivan's "The Lost Chord," accompanied at the piano by Mrs. Hole. Selections by the Plectra Orchestra and an entertaining whistling solo by Mrs. Frank Thomas were much enjoyed. Mrs. Hart and Mrs. Ker were at the receipt of customers.

A no-host party was held in conjunction with the Uplands Golf Club dance last evening, in honor of Miss Ethel Bale and Mr. Ronald Noakes, whose marriage will take place shortly. The party was instigated by members of the B.C. Forest Branch, of which Mr. Noakes is a member. Those present were: Mr. and Mrs. G. Silburn and the Misses Ethel Bale, Irene White, Alice Dawson, Ruth Peddingham, Kay Burnett, Dot Hill, Pat Taylor, Barbara Bradford, Irene Northcott, Judy Pearce, Messrs. Ronald Noakes, P. Campbell, T. K. Smith, A. Anderson, F. Crouh, J. Stoke, J. Benton, F. Benton, J. Bremner and A. C. Kinnear.

W.A. No. 65 to Typographical Union 241 held their 14th annual banquet on Tuesday evening at the home of Mrs. Chislett, Prior Street. The tables were decorated in Valentine fashion and centred with a Valentine figure dressed in hearts. Mrs. Coldwell, the new president, gave the toast to the King. A beautiful lace cloth was presented to the retiring president, Mrs. J. Hough, and the retiring officers each received a handsome silk dress hanger. Bridge and Chinese checkers were played during the evening. First prize, Mrs. J. Hough; second, Mrs. W. Cross; third, Miss E. Chislett. Mrs. Drysdale won at Chinese checkers.

The Centennial Young People's Society held a Valentine tea on Tuesday. The program opened with two solos sung by Mrs. Williams, followed by a recitation by Sylvia Birkett; Helen Kent played two piano solos. Owing to the absence of Dr. Riddell, Rev. Dr. Andrew Reid gave an interesting talk on Italian cities. Donald Kerley played two cornet solos and Mr. Buckler gave a monologue and sang a solo. The program was brought to a close by Edna Ford singing two solos. After the program refreshments were served under the convenership of Jean Bailey and Ruth Almond.

C.C.F. Women's Auxiliary met Tuesday at 1209 Whittaker Street, with a good gathering of members and friends. The treasurer gave an encouraging report. The afternoon was mostly taken up with business and a great deal of effort is being put forth to make the forthcoming election a great success. Delegates were appointed to attend the annual meeting of the Local Council of Women at the S.O.E. Hall, Broad Street, February 21 and 22. Mrs. H. J. Beale gave a book review of "The Most Powerful Man in the World," by Glen Roberts, which depicts the wonderful career of a poor Dutch boy who rose from obscurity to be the greatest oil magnate of his age. Hendrick Wilhelm Augustus Deterding was born in Holland in 1866 and discovered oil in almost all countries of the world where it is found, and traded it among all kinds of industries. Armies, navies and nearly all industries of the world today, depend on oil. Deterding floated companies everywhere, the Royal Dutch Oil Co. is one of them. It is only a few years ago since he passed away leaving a vast fortune. Mrs. Beale was heartily applauded for the excellent review. Tea was served by the hostess. The next C.C.F. W.A. meeting will be at 2583 Heron Street, Tuesday, February 27, at 2.30.

**WOMEN**  
Here's amazing way to Relieve "Regular" Pains  
Mrs. I. C. Lamm writes: "I was undernourished, had cramps, headaches and backache, accompanied with my monthly periods. I took Dr. Pierce's Favorite Prescription for a while, gained strength, and was greatly relieved of these pains."

**COSMETICS IN TIBET**  
CHUNGKING, China (CP)—Lhasa, capital of Tibet and holy city of the Lamas, is adopting the western conveniences of electric light and motion pictures, according to Miss Liu Man-Ching, a Tibetan girl who has arrived in Chungking at the head of the "Tibetan War Aid Publicity Corps."

The Lhasa temples are now lit with electric bulbs, and the Lamas visit the movies to see British and Chinese films. Tibetan women use imported cosmetics. The Tibetans, Miss Liu Man-Ching says, hold religious ceremonies in memory of the Chinese war dead and offer prayers for China's victory.

25 Years Ago February 15, 1915

WINNIPEG—Members of the Canadian contingent are now at the front, and a certain brigade of Canadian infantry moved to its positions in the trenches on Saturday night last.

LONDON—Two big battles, it is believed, have already begun, or will soon begin on the Russian side of the East Prussian frontier and on the river Sereth, within Bukovina.

One of the best observed prospects on the coast accepted terms Saturday with the Victoria ball club when Ted Kaylor, the Oakland fly chaser, notified the local club that he would report here on April 1.

Amid the cheers and messages of good luck called out by relatives and friends, the 30th Overseas Battalion sailed out of the harbor yesterday afternoon on board the Princess Adelaide and Princess Mary on the first leg of their long journey.

Bill Hay Recovers HOLLYWOOD (AP)—Bill Hay, radio announcer for the Columbia Broadcasting Company, was in a hospital today after collapsing in the studio, but his physician said he was recovering and probably would be released before evening. Hay became ill just before he was to go on the air as announcer for the Amos 'n' Andy program last night. Nature of his illness was not disclosed.

Sees Nothing New in Hitler Philosophy Mount Douglas High P.T.A. met in the school auditorium on Tuesday evening. A minute of silent tribute was paid to the memory of Lord Tweedsmuir, following which business relative to the provincial convention was discussed. It was decided to send a delegate, choice of whom was left to the executive. The members were asked to bring to the next meeting magazines suitable for sending to Clayquod school.

The speaker, Dr. Sydney Pettit, gave an instructive talk on "Some Aspects of the Present Struggle," in which he brought out the idea that Hitler in all he says and writes is merely re-uttering the thoughts of all leading German philosophers for many years past.

He spoke of Germany's deep feeling of nationalism and race-consciousness, intensified by frustration, and showed how the philosophy of "a dominant race" led to ruthlessness and disregard of ethics. All these factors, he said, would have to be considered before we had any hope of winning the peace.

Mr. Rowebotham moved a very hearty vote of thanks to the speaker, after which the meeting adjourned for refreshments.

The three sugars most abundantly found in plants are sucrose or cane sugar, glucose or grape sugar, and fructose or fruit sugar.

SALEM, Mass. (AP)—Judge George A. Costello denied yesterday the petition of Sarah Palfrey Fabyan, tennis star, for a divorce from Marshall Fabyan on grounds of cruelty. The court

contended the allegation of cruelty was not sustained. The couple was married in 1934.

Ruth Draper Raised \$16,250 for Red Cross

MONTREAL (CP)—Quebec branch of the Canadian Red Cross Society announces receipt of a cheque for \$16,250 from Ruth Draper, dramatic monologist, who has offered the total proceeds of a recent Canadian tour to the society for its war effort.

IS DENIED DIVORCE

SALEM, Mass. (AP)—Judge George A. Costello denied yesterday the petition of Sarah Palfrey Fabyan, tennis star, for a divorce from Marshall Fabyan on grounds of cruelty. The court

contended the allegation of cruelty was not sustained. The couple was married in 1934.

Royal Clothes for Finnish Children

LONDON (CP)—The Duke and Duchess of Kent today sent boxes of clothing belonging to their own children to be distributed by the British committee helping in the care of 250,000 homeless Finnish children.

In a letter to Lady Weigall, representing the committee, the Duke expressed his admiration for the magnificent struggle being made by the Finnish nation against such great odds.

### Whether You Are Building a New Home or Refurnishing Your Present One

... you'll find it to your advantage to buy during "THE BAY'S" FEBRUARY HOME FURNISHING SALE. This sale has been arranged to help you carry out your plans for bringing your home up to date at small cost. If your rugs or drapes are faded, drab or shabby... your furniture "dated"... and you wish to brighten up your home this spring, then let us give you helpful suggestions and show you how little it will cost. Your worn rugs and out-moded furniture may be "traded in" as part payment for new... and if you so desire, you may pay the balance out of monthly income. During the month of February, "The Bay's" Deferred Payment Plan has been extended to 12 months.

## Sale! FLOOR SAMPLE BEACH RANGES

A Special Feature in Our February Home Furnishing Sale!

"Beach" Ranges are noted for their smart appearance, sturdy construction and modern features! Adaptable for oil and sawdust burning.

1 Only, SENATOR D

Nickle and black with enamel panels, complete with high shelf and water-front. Has 15-inch firebox, anti-clinker grate, and is quick heating and economical. Sale price \$59.00

Easy Terms Arranged

1 Only, SENATOR C

Enamel front panels and black sides. Has heavy steel top, large oven, anti-clinker grate, and scientifically arranged flues. Waterfront and high shelf. Sale price \$53.50

Easy Terms Arranged

1 Only, CO-ED D

Enamelled oven and ashdoor panels, nickel trim. Has high shelf and waterfront, 15-inch firebox, heavy vented backs and anti-clinker grate. Special, complete. Sale price \$69.00

Easy Terms Arranged

1 Only, COMPEER C

Economical, sturdy and attractive... give thorough satisfaction; 15-inch firebox, warming closet and waterfront. Sale price \$65.00

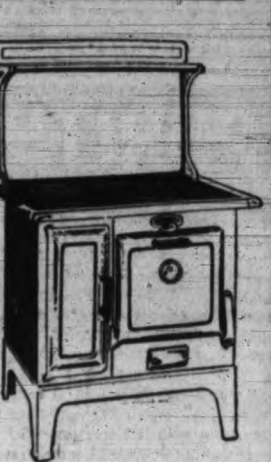

Easy Terms Arranged

1 Only, COMPEER C

An ideal baking range with high shelf, waterfront, 15-inch firebox, heavy grates and backs. Special sale price \$59.00

Easy Terms Arranged

## LEAK REPORTED AT DIES INQUIRY

WASHINGTON (AP)—Chairman Martin Dies of the United States Congressional Committee investigating un-Americanism, declared today he was looking into a report that "

# Dominoes Lack Scoring Drive

## Sports Mirror

By PETE SALLAWAY

WRESTLING referees in California are now required to take a quiz in applying for licenses, and not a few of the boys are reported butting their brains out on dizzy questions. There are legal teasers in the California examination.

A mat official must know how to slide head-first into the nearest balcony. He has to be able to count out two behemoths and himself at the same time. It is quite a trick to crawl out from under two tons of lard that might be parked on your person without the slightest warning.

Bouncing off a cement floor is vastly more than a knack. Extricate 18-inch necks from ropes demands the skill of a hangman.

But it is speed of foot that the various commissions look for in grappling arbiters nowadays. The third man must step lively to get out of the way of flying tackles.

Gus Sonnenberg missed one in Boston one night and, butted the referee into the 17th row.

It used to be that old-timers could act as referees.

They knew the difference between a pinfall and a pinwheel, but this knowledge no longer is necessary.

A referee must now travel in all kinds of going-in mud, ice cream, smelt, tomatoes and what-not.

There are, of course, mudders, ice creamers, smelters and blokes who go best in tomatoes. There is a sad story about a fellow who handled a match in tomatoes at Lake Worth, Fla. He broke out in a rash of hives. You can't be allergic to anything and referee wrestling matches.

Benny Paul failed to pull in his neck in time as Jim McMillan twirled Ed Lewis in an airplane spin in Philadelphia and had \$500 worth of teeth knocked out by the swinging Strangler's feet.

Willie Clark of Philadelphia weighs more than 200 pounds, but has quit handling wrestling matches because the work is too tough. The boxing referee has a picnic in comparison . . . gets a minute's rest between rounds.

There is a great field in refereeing wrestling matches for those who can take it.

The better wrestling referees have become such a part of the show that they must act as well as the panting pachyderms.

Bone benders object to old boxers starting a count every time they go down under a rabbit punch.

Boxing and wrestling simply don't mix.

Hans Steinkne found that out one night in Los Angeles when, after due preparation, he launched what he believed would be a sustained drive for the heavyweight boxing championship. For a starter, they tossed the German in with a negro named Tom Hawkins, and who could box like blazes.

Huge Hans lunged at Long Tom for a round and a fraction while letting his nose peppered with left jabs good and plenty.

Steinkne grew tired of this before the second heat was half over . . . decided to return to what he knew best . . . pronto.

Gloves and all, he fastened a hammerlock on Hawkins.

The booby could be heard in San Francisco as Steinkne glided the startled Hawkins' shoulder blades to the canvas, but that was all right with Hans. He took his customary bows from the four sides of the ring.

Hans Steinkne had won his way and in his own mind, and was glad to get out of there.

### JUVENILE SOCCER

Juvenile football games for Saturday morning at 10:30 follow:

Pro-Recs vs. Shamrocks, Athletic Park.

St. Louis College vs. Gorge Aces, Central Park.

About 2,000,000 people were made shelterless by the earthquake and the floods that followed in Turkey, in December, 1939.

**SKIING AMONG THE CLOUDS**—High on the snow slopes of Jasper National Park, noted Canadian skiers have been preparing for important Dominion and United States competitions scheduled for early spring. Under the warmth of the alpine sun they practice tirelessly during the day, race their shadows down mile-long runs to timberline chalets as evening approaches. Gertrude Wepsala of Vancouver, Dominion women's champion, who chose the Maligne ranges near Jasper for her training, is seen in the photograph swinging into a turn while her swiss coach, Peter Vajda, watches her perform.

### SPEEDSTERS PLAN FOR 1940 RACES

To the Victoria public automobile racing has been lying dormant during the winter months, but to the boys behind the sport it's a different story altogether.

Plans have been under way for some time for the opening speed meet of the 1940 season in May at the hard-surfaced oval at Langford, and Promoter Jack Taylor reports that indications point to at least 11 local cars being ready for competition at that time.

The annual meeting of the British Columbia Automotive Sports' Association will be held next Tuesday evening at 8 in the British Public Schools' Club, Langley Street, at which time plans for the season will be discussed further and officers elected.

Pacific Coast drivers and their automobiles will be brought here again this season, and with the early start being made on the preparations for this summer's racing, speed fans should be in for some thrilling times.

### Western Hockey

## Champions Set Pace

WINNIPEG (CP)—Allan Cup winners of the last two years are in first place in their respective leagues today as western Canada's senior hockey teams gird themselves for the stretch run to the playoffs.

In three of the four major western leagues the greatest margin of a top-place team is two points.

When the week started, Port Arthur Bearcats, champions of Canada last year, were four points in front of the Thunder Bay senior league pack. Two successive draws between the other league members, Geraldton Gold Miners and Fort William Ports cut this lead two points, with Miners in second place.

Smoke Eaters from Trail, B.C., Dominion title-holders in 1937-38, and winners of the world's amateur hockey crown in Europe last winter, have established a big margin over their opponents in the West Kootenay Senior Hockey League. Evidence of Trail's superiority over the rest of the league is demonstrated most clearly by the fact Smoke Eaters have hammered in four goals for

every tally made by opposing teams.

**QUAKERS IN FRONT**  
Saskatoon Quakers are sitting on top of the Saskatchewan senior heap by a one-point margin over Moose Jaw Millers. Quakers took over first place early in the week when they staged the league's greatest scoring surge this season by whipping Millers 13 to 1 after Moose Jaw returned from a triumphant visit to Flin Flon, where they scored two victories over the cellar-dwelling Bombers. Moose Jaw is only one point ahead of Regina Vic-Aces who, in turn, have a four-point edge on Yorkton Terriers.

The Alberta senior loop has developed into a three-team race between Calgary, Lethbridge and Turner Valley. Calgary Stampede head the parade, but Lethbridge Maple Leafs are just a point behind with a four-point advantage over Turner Valley Oilers. Edmonton's fourth-place flyers are more than 10 points off the pace, pressed closely by Olds and Drumheller.

## Record List for Kentucky Derby

LOUISVILLE, Ky. (AP)—A record list of nominees is predicted for the first \$75,000 Kentucky Derby May 4. Nominations for the 66th running close at midnight.

Last year 115 horses were nominated. Col. Matt Winn, boss of the Downs, expects about 140 to try in 1940 for the biggest pot of gold—plus a gold cup—ever offered the classic winner. Up to this year the cash was \$50,000 added.

Boistering the colonel's prediction are two factors:

1. Breeders and trainers share in the purse for the first time.

2. Cancellation of many important races in England and on the European continent because of the war is expected to develop a heavy invasion of foreign thoroughbreds. The Downs management mailed blanks some time ago to various agencies in Great Britain and Elre.

### FAVORS BIMELECH

The grapevine information bureau let it be known that Col. E. R. Bradley, without a runner in the last two derbies, hadn't changed his mind about naming Bimelech as his No. 1 contender. Col. Bradley, whose horses have won more derbies—four—than any other owner, some time ago predicted not only that Bimelech would win this year's romp, but the Bradley stable would have the second and third horse as well.

There didn't seem to be any doubt about Arnold Hangar's Roman Flag, winner of the breeder's futurity; Anthony Pelletier's Andy K, and C. V. Whitney's Carrier Pigeon.

It was predicted that other nominators would include Mrs. L. V. Mars, William Woodward, Greentree Stable, King Ranch, Calumet Farms, Woodford Farms and Thoms Platt.

It will be several weeks before the nominees will be made public.

**NEAR RIOT**  
As near a riot as has been witnessed on a basketball floor for some time took place in the scholastic C men's scuffle between Knapp's and Bruisers. The bombshell burst just five seconds before the close of overtime and when all smoke had cleared away Referee Malcolm gave the game to Knapps, who were leading at the time 25 to 23.

A late call by the referee invoked the wrath of Coley Chambers. He lashed Malcolm with his tongue and then waded in to attack him. Players interrupted and a merry little battle of fist-cuffs and wrestling followed.

When things had quieted down, Malcolm ordered Chambers and Jack McDonald of the Bruisers off the floor. When they refused to leave he gave the game to the opposition. This infuriated McDonald and he was about to pounce on the referee when club-mates intervened. About 10 players took part in the fray.

The Knapp-Bruisers game was keenly fought all evening. It was a wild battle, the score going into a knot four times, finally finishing at 21 to 21 at the end of regulation time. The score was tied at 23 to 23 and Doug Gent sank the basket that proved to be the winning point in the overtime. The win advanced Knapp's into the sudden-death final against Garrison.

West Road started out like a million in the senior B game, getting 22 of their points in the first session, but went into a relapse in the final 20 minutes. At the half the score stood 22 to 19 for the Roaders. Champion and White really hit their stride during the West Road second-half fade-out, outscoring their rivals by six points. In the final quarter the score was deadlocked 27 to 27 and at this point the Sidney boys rushed in five points to take the game.

The low-scoring Caveys-Creamery game was just as keenly fought (Turn to Page 10, Col. 2)

# Canadiens Renew Playoff Drive With New Players

## Lions Increase Hockey Margin

SEATTLE (CP)—Vancouver Lions are riding high today with a four-point lead in the Pacific Coast Hockey League race.

Lions came from behind in a league tilt here last night to down the third-place Seattle Sea Hawks 5 to 3 in overtime and take a two-game lead over Portland Buckaroos—the widest margin in many weeks in the see-saw battle for top spot.

Guy Patrick's men meet the Bucs in Portland tonight. The league playdowns are about a month away.

Owen Lennon scored a couple for Lions in their game with the Hawks, while Jack Adams, Morey Rimstad and Frank Jerwa added the others. For the Hawks, Frank Daley netted a couple and Johnny Houbregs the third.

It was Seattle's fourth straight setback in their descent from first place, and the third win in a row for Vancouver.

### SUMMARY

First period—1, Vancouver, Adams, 17.45.

Second period—2, Seattle, Daley, (Ripley), 4.35; 3, Seattle, Daley, 7.36; 4, Seattle, Houbregs (Downie), 10.08; 5, Vancouver, Lennon (Palm), 12.35. Penalties—Jerwa, Kenny, King.

Third period—6, Vancouver, Rimstad (Adams, Palm), 8.17. Penalty—Lennon.

Overtime—7, Vancouver, Lennon, 3.40; 8, Vancouver, Jerwa, 8.04.

**Kiefer Sets Three Swimming Marks**

CHICAGO (AP)—Adolph Kiefer, who betters his world backstroke record almost every time he competes, owns three new marks today.

The Chicago star participated in three events at the Chicago Towers Club swimming meet Tuesday night and timers clocked him in world record time for each.

Kiefer churned the 880-yard distance in 11.04 to eclipse his 1935 time of 11.31.2. For the 1,000-yard course he set a mark of 12.34.5, against 13.07.4, also established five years ago.

In setting his third new mark, Kiefer swam a 50-yard leg of the 150-yard medley in 26.9, which shaved three-tenths of a second off the old mark. The medley team, composed of Kiefer, Otto Jaretz and Al Jacobson, went on to establish a new world mark for the 150-yard distance of 1:18.2. The old record was 1:19.6, established by Harvard University swimmers in 1938.

## Thunderbird Will Wrestle Saturday

Promoter Rocky Brooks has completed his wrestling card for Saturday night at the Army and Navy auditorium, starting at 8:30.

In the semi-main event Chief Thunderbird will battle Pat McEahan. Thunderbird, who was scheduled to leave this week for Manila, has been held up through the nonarrival of his papers, and will be in the city for another seven days or so.

The main event Saturday will be between John Katan and Billy Hanson.

Seattle	14	16

## All-star Baseball Managers Selected

TAMPA, Fla. (AP)—The 1939 world series will be fought all over again, as far as the managers are concerned, in the all-star game for the benefit of the Finnish Relief Fund between picked teams from National and American Leagues here March 17.

Joe McCarthy of the New York Yankees and Bill McKenchie of the Cincinnati Reds have been chosen to pilot the two star-spangled outfits. They were offered the posts last night and they promptly accepted, McKenchie displaying a commendable fortitude in view of the lacing his Reds took from McCarthy's Yanks last October.

Bill possibly felt that nothing worse could happen to him than he already had absorbed. If his National Leaguers should catch it in the neck this time he at least will be able to blame it on the sports writers who will get to

**FOXKY OPERATOR**—Jimmy Foxx plays solitaire on cash register of one of two St. Petersburg, Fla., golf courses he is operating during current off-season. Fully recovered from the appendectomy to which he submitted late in the 1939 baseball campaign, the major league home run king is looking forward to another big year at first base for the Boston Red Sox.

## Alberni Fighter Beats Local Boy

PORT ALBERNI—Al Biggs, this town's fistie pride, scored a technical knockout over Larry Fears, R.C.N., Victoria, in the main event of an amateur boxing card presented here last night by promoter Blackie Bengert of the Port Alberni Amateur Athletic Club.

The Victoria boy started out well and punished Biggs with hard punches. In fact Fears had the local boy pretty wobbly in the first round, but Biggs came back strong in the second and third rounds and pounded Fears until his seconds called quits.

Allan Dufal, the only Victorian to get a victory on the card, scored a clean-cut decision over Rudy Bursher, Port Alberni, after an interesting bout. Bob Clements, Victoria, and Leon Perret went three rounds to a draw.

Lionel Speller, Victoria, was beaten by Kid Gagne, Alberni, after a lively fight.

Russ Kimmell, Port Alberni, won a close decision over Red Knowles, Victoria, the decision drawing boos from the large crowd. The customers also booed the decision in the bout between Ted Gray, Victoria, and Jack Maslin, Port Alberni, the latter getting the nod. Bill Scott, Victoria, who was billed to meet Jimmy Dumont, Alberni, could not enter the ring due to illness.

Louis Callan was in charge of the Victoria fighters.

WINDSOR, Ont. (CP)—Windsor Alumni, last season's Canadian basketball finalists, defeated Assumption College 34 to 33 last night in the first of a best-of-three series for the city title and the right to represent Windsor in the provincial playdowns.

Alumni were nose out by Victoria Dominoes in a five-game series for the Dominion title last year.

**TWO 'IRISHMEN'**  
McCarthy and McKenchie were agreed upon because March 17 will be St. Patrick's Day and because someone thought it would be a great idea to have a couple of Irishmen managing the two clubs. Later, it was learned that McKenchie is a complete Scotchman, and no Irishman at all, but the sponsors decided they would stick with Bill, anyway.

The National Leaguers won't have to tackle quite so many Yankees this time as they faced in the world series and in last year's all-star game. As tentatively planned, no more than four players will be chosen from each team, the two leagues, and only one performer will be brought here from each of the five clubs training on the Pacific coast.

## Cellar Squad Signs Three Amateurs

Montreal Canadiens resume tonight the long struggle to get out of the National Hockey League cellar and into the Stanley Cup playoffs.

The main point to the advantage of the Habitués is the fact that they have played four games fewer than New York Americans, whom they trail by three points for the sixth and last playoff spot. That's a pretty fair sort of outlook for a club who hadn't won a game in their last 10 when they defeated Detroit Sunday.

But more than statistics will be to the club's advantage tonight in the engagement with the fourth-place Chicago Black Hawks at Montreal. A new youth motif has been injected by the addition of three forwards from amateur ranks and, whether they are as finished as the men they replace or not, the newcomers certainly can't make the Canadiens less aggressive.

**THIRD TO SIGN**  
Gordon Polrier, whose signature the Frenchmen sought for several weeks, put it on the line last night and joined Tony Demers and Smiley Meronek as a convert to professional company.

There is a possibility coach Pit Lepine may elect to start them on one line, though Demers has been working with George Mantha and Toe Blake.

Ernie Savard, president of the Canadiens, announced he would make no further efforts to sign Tony and Albert Lemay, the brothers who with Polrier composed the highest-scoring line in the Quebec Provincial Hockey League.

The night's other game involves Detroit and the Rangers at New York. By winning the Rangers can pull into sole possession of first place again, but they will have made two more starts than Boston Bruins, with whom they are tied now.

## Golf Tournament

TAMPA, Fla. (AP)—Nearly three score golfing baseball players in Florida awaiting the call of spring practice, planned to tee off today in the fifth annual baseball golf tournament.

Pitcher Wes Ferrell of Brooklyn, defending champion, is automatically exempt from today's 36-hole qualifying test.

Outfielder Joe Medwick of St. Louis Cardinals became one of the front rank contenders by turning in a snappy one over par 71 yesterday in a preliminary pro-baseball meet.

Ferrell, Medwick and Lloyd Waner of Pittsburgh will play together.

Al Lopez, Boston Bees catcher, is paired with Tony Cuccinello, Boston infielder, and Truett Sewell, Pittsburgh hurler, in the starting trio.

Paul Derringer, Cincinnati pitcher, Jimmy Foxx of Boston Red Sox and Al Simmons of Philadelphia Athletics made up a highly regarded threesome.

## RETAINS CLUB

WENATCHEE, Wash. (AP)—Wenatchee Chiefs will be in the Western International Baseball League again this year, owner Charles Garland said today.

He said sufficient money had been raised by local subscription to guarantee operation of the club for another season and in addition he had been assured of a limited tie-up with the New York Yankees again because of the relaxation of the farm system rule by baseball commissioner Kenesaw Landis.

## THE WEATHER

VICTORIA, 8 a.m. today—Pressure remains over the north coast and over the Rocky Mountain states. A moderate disturbance appears to be approaching Vancouver Island from the west. Showers have occurred on the British Columbia coast while the weather has been fair and cool in the interior. Temperature has been moderate in the prairie provinces with local snowfalls.

Victoria—Barometer, 29.88; temperature, max. 49, min. 37; wind, 3 miles E.; precip. trace; cloudy.

Vancouver—Barometer, 29.85; temperature, max. 49, min. 37; wind, 3 miles E.; precip. 1.5; cloudy.

San Francisco—Barometer, 29.85; temperature, max. 54, min. 41; wind, 5 miles E.; precip. 36; clear.

## Bishop Cody Pays Tribute

A large congregation of St. Andrew's Cathedral last night offered prayers for the repose of the soul of the late Baron Tweedsmuir and heard Bishop John C. Cody eulogize the life of Canada's 15th Governor-General.

Bishop Cody told his congregation he talked with His Excellency as recently as February 3, in Ottawa, at a dinner at the Apostolic Legation.

## COULDN'T WALK 10 FEET! MR. FRANCIS JAMES WAS RHEUMATIC PAIN VICTIM

"But Mosby's Tonic Relieved My Suffering," He Says—Cleared Gas Bloat From Upset Stomach—Relieved Bowel Constipation—Now This 78-year-old Man Feels Fine and Takes Long Daily Walks

As time goes on, it becomes more and more apparent to the people of Victoria, that MOSBY'S TONIC is a medicine of Trust, Genuine MERIT. This "New, Scientific Formula of Roots and Herbs and Other Splendid Medicinal Agents," is now being introduced to crowds daily here in Victoria at the Cunningham Drug Store (formerly Vancouver Drug Co.), Fort and Douglas Sts. Leading Druggists throughout this entire section are reporting a steady increasing demand for Mosby's Tonic. And at the same time, some of the city's best-known residents are coming forward daily with Grateful Public Statements, describing what Mosby's Tonic did for them and endorsing it to others who suffer in the same way.

Among the widely-known Local People who publicly praise MOSBY'S TONIC, none is more enthusiastic about this New Compound than Mr. Francis J. James, of 4081 Victoria Drive, Vancouver, B.C. Mr. James has lived in this section 30 YEARS and is a Retired Gardener, 78 years of age. He has friends throughout Victoria and vicinity. We are, indeed, PROUD to publish this statement from such a well-known citizen. Mr. James' sincere testimonial about Mosby's Tonic reads as follows:

**Couldn't Leave House, Due to Rheumatic Pain**

"I have spent a great deal of my life in the open air and have been very active, until about two years ago, at which time I began having rheumatic pains," said Mr. James. "This rheumatic condition kept getting worse until finally, in the past year, I became almost crippled with it. I was so bad with it at times that I couldn't walk 10 feet, and wouldn't dare to leave the house. So you can see that I had my share of suffering.

Besides these distressing rheumatic pains, I also had trouble with indigestion and a gassy, bloated stomach. I couldn't eat without suffering gas pains, and my bowels were so sluggish and irregular that I had to take

"Canada, the British Empire and, indeed, humanity in general, have lost in the death of Lord Tweedsmuir a great friend," Bishop Cody said. "I think the world is much poorer for his passing for we have lost a great Viceroy, the only Governor-General of Canada who died in office, a great Christian who did not allow his lengthy illness to cast a shadow on his disposition, a great soldier and a great man—he sought no solution for modern problems except in Christ."

Canada needed such a type of citizen as Lord Tweedsmuir, the Bishop said, for he was one who could and did bring together all racial and religious groups of the country. He had a breadth of vision that included all religious creeds and one of his greatest pleasures, Bishop Cody recalled, was knowledge that Roman Catholics in Quebec treated the Protestant minority with such tolerance.

Bishop Cody on behalf of his parishioners on Vancouver Island, sent a message of sympathy and offer of prayers to Lady Tweedsmuir and her family.

### REFEREE ATTACKED

(Continued from Page 2)

fought as the others, the former putting more "umph" in their final half drive to finish on the long end of the score. Score at the half stood 8 to 6 for Caveys. Malcolm and Bob Macmurchie refereed.

### TOMORROW'S GAMES

Three play-off games will be played tomorrow evening at the High School gym as follows:

7.00—Young Dominos vs. Chinese Students, Intermediate 3 boys.

8.00—Garrison vs. Knapp's Nurseries, senior C men, sudden death for city championship.

9.00—West Road and Champion and White, senior B men, final game of total-point series.

MR. FRANCIS J. JAMES, of 4081 Victoria Drive, Vancouver, B.C., who says: "MOSBY'S TONIC is Splendid. It Did More for Me Than All the Other Medicines I Took PUT TOGETHER. I gladly Endorse It."

strong laxatives and physics regularly.

### Mosby's Tonic Relieves Him; Now Feels Fine

"I tried practically everything I heard of, but nothing did me any good and I surely was discouraged. But finally I found Mosby's Tonic, and want to say to everybody in this vicinity that this Splendid Tonic did more for me than everything else I tried COMBINED. In three weeks it simply changed me ALL OVER. It had a fine invigorating action on my sluggish organs, and just seemed to drive those rheumatic pains right out of me. And, say, I can take long daily walks now, without flinching from those rheumatic pains like I did before. I attempted to walk even the short distance of 10 feet. I can hardly believe all of this relief has come to me in such short time. It has made my bowels more regular than they have been in years and no more of that gas bloating distress after I eat. This medicine is certainly splendid, and no mistake about it, and I hope my statement will cause many other people who suffer as I did to get Mosby's Tonic and take it."

**Acts Many Ways on Your System at One Time**

MOSBY'S TONIC contains 20 ingredients. So it acts in many ways on your system at one and the same time. It brings forth gas and bloat from stomach, acts on the bowels, stimulates the flow of liver bile, and helps relieve rheumatic and neuritic pain when due to contaminated system from the sluggish action of these organs. In short, due to its many ingredients, Mosby's Tonic acts as a cathartic, laxative, cholagogue and diuretic, all at the same time.

Weak, worn-out people write us daily they get such a cleansing and invigorating action from this medicine that they soon feel like different men and women. Due to the immense volume in which it sells, the Price of Mosby's Tonic is Reasonable. So don't hesitate. Get Mosby's Tonic—TODAY—and start taking it!

## Tweedsmuir Memorial Is Largely Attended

His Honor the Lieut.-Governor and Mrs. E. W. Hamber arrive at Christ Church Cathedral, accompanied by Col. M. W. Turner, A.D.C.

Citizens from every walk of life filled Christ Church Cathedral yesterday afternoon for the service in tribute to the memory of Lord Tweedsmuir, 15th Governor-General of Canada.

Plain people, women with shopping bags, workmen in heavy shoes, school children, mingled in the vastness of the Cathedral with top-hatted government and civic dignitaries and gold-braided officers of the navy, the army and the air force. The service was simple and dignified, as befitting the man whom it honored so well.

Rt. Rev. H. E. Sexton, Bishop of Columbia, Rev. A. E. Whitehouse, pastor of Metropolitan United Church and president of the Victoria Ministerial Association, and Rev. J. L. W. McLean, pastor of St. Andrew's Presbyterian Church, where His Excellency worshipped when in Victoria, conducted the hour service.

### LORD MARLEY PRESENT

His Honor the Lieutenant-Governor attended with Mrs. Hamber. Lord Marley, deputy speaker of the British House of Lords, was with the Government House party.

Commodore Victor G. Brodeur and Commander R. L. Agnew, Brigadier C. V. Stockwell and Wing-Commander A. D. Bell-Ising represented the navy, the army and the air force, respectively.

Behind them sat groups of uniformed sailors, soldiers and aviators.

Hon. Dr. K. C. MacDonald, Minister of Agriculture, and Hon. G. M. Weir, Provincial Secretary, represented the provincial government. Mayor McGavin and members of his council attended in a body, as did members of the Victoria School Board.

War veterans, wearing medals and decorations, boy scouts and girl guides in uniform, members of the Red Cross and St. John's Ambulance Association and representatives of the Women's Service Club and the I.O.D.E. were in reserved sections.

### AN INSPIRATION

In a masterly address, Rev. J. L. W. McLean covered the career of Lord Tweedsmuir—a career, he said, which should be an inspiration to all.

"His is a story, the romance of which, even amidst our sorrowing, compels our interest and calls forth our unstinted admiration," Mr. McLean said. "It begins in the Scottish borderland—the land of historic legend and beauty of landscape, the land of Burns and of Scott, in a humble Presbyterian manse. John Buchanan's father was a minister of the Church of Scotland, his mother was the daughter of a minister, a cousin of Mr. Gladstone.

"Lord Tweedsmuir was a true Scot, steeped in Scottish tradition, an exponent of the bagpipes, an admirer of Sir Walter Scott; but Scotland cannot claim him as hers; neither can Canada. He belongs to the whole British Commonwealth of Nations and through them to the world."

### SUCCESSFUL MAN

Mr. McLean said the late Governor-General was a great man, a successful man.

"I hope this will be recorded: John Buchanan was a Christian—that is why his life was a success; that is the secret of his greatness; that is why his passing is a severe loss to Canada and the Empire," Mr. McLean said.

"He was a loyal, devoted Presbyterian—we honor the memory of his conspicuous ability because he used his many talents in the service of his fellow men. The world is today well supplied with clever men; yet we see it in places cursed by their very cleverness, where human ability is directed to selfish, un-Christian ends."

How much today the world of government, of letters, of society and industry needs such spirits as his."

### HYMNS SUNG

The congregation sang the ageless hymns, "Abide With Me," "Unto the Hills Around Do I Lift Up My Longing Eyes" and "Jesu Lover of My Soul," with Stanley Bulley at the organ, and the choir sang to the Contation of the Faithful-Departed while the congregation knelt in prayer. The Lord's Prayer was recited in unison and the lesson was from St. Paul, written in the First Epistle to the Corinthians, containing the comforting words "O death, where is thy sting? Oh grave, where is thy victory?"

The Cathedral bells pealed out muffled dirges as citizens entered the Cathedral, and as the congregation left Mr. Bulley played the Chopin funeral march. From the gallery a killed Highlander, Pipe-Major Ian Duncan of the 2nd Battalion, Canadian Scottish Regiment, played on the bagpipes the famous Highland lament, "Flowers of the Forest."

### LEGION WELCOMES VISITING AIRMEN

OTTAWA — Airmen from Great Britain, Australia and New Zealand, who come to Canada in connection with the Empire air training scheme will be granted the extensive hospitality and welfare facilities of the Canadian Legion, J. R. Bowler, M.B.E., general secretary of the Legion announced today.

The airmen, in addition to being invited to make use of the several hundred club houses owned by Legion branches throughout Canada and enjoy their reading and recreation room facilities they afford, will also be able to enrol for study courses in the Legion's education program. They may also use the personal services branch of the organization for assistance in any problems, domestic or otherwise, arising from active duty.

The eighteenth century Swedish engineer Emanuel Swedenborg, created descriptions and sketches of such devices as flying machines, the machine-gun and underwater craft.

## Australia Censors Face Shake-up

SYDNEY — Complete revision of the censorship system is promised as a sequel to the arrival of the first contingent of Australian troops at Suez.

Prime Minister Menzies, following a meeting of the war cabinet, said:

"I am satisfied that some people behaved with such a high degree of stupidity that is occasioned unnecessary inconvenience to the press and prevented reasonable satisfaction to the public."

Recommendations for revision of the censorship system would be made by Sir Henry Gullett, Minister for External Affairs, and head of the Information Ministry, the Prime Minister announced.

The censor's handling of news of the troops of the Second Australian Imperial Force resulted in a storm of criticism in Australian newspapers. Both the British censors in London and the Australian censors were criticized, but in most cases it was admitted only minor responsibility could be placed on London.

Newspapers charged nearly all the muddle about the release of articles and photographs of the departure of the Australian troops was caused by Australian military authorities.

### NEW NYLON USES DISCOVERED

WASHINGTON—A new patent issued by the United States Office here revealed that nylon material—chemical wonder made basically from coal and air and water—can be used to coat paper, leather, cloth and wire mesh to produce oilproof paper containers, a superior patent leather, long-wearing, flexible, waterproof clothing and a sturdy, transparent kind of window glass.

The new patent is No. 2,188,332 issued posthumously this week to the late Dr. Wallace H. Carothers, chemist of the E. I.

DuPont de Nemours & Co., who obtained the basic patents on nylon. The patent is assigned to DuPont.

The new Carothers patent describes how to use the chemical material nylon in its new coating form. Paper impregnated with the chemicals, says the patent, was very greaseproof and "showed no visible penetration of a colored turpentine solution after 240 minutes of contact."

By pressing the chemicals, known as polyamides, into goat's leather a glossy finish was obtained that resembled patent leather, but which resists wear and cracking, due to flexing, many, many times over ordinary patent leather.

Applied to cotton broadcloth, the chemicals produce a flexible cloth that strongly resisted tearing and was waterproof.

### NYLON COINED TITLE

When spread over wire mesh, the materials formed a transparent, clear strong "glass" transmitting ultraviolet light.

The nylon coating, with its greaseproof and waterproof properties, can be applied to "wire mesh, metal sheets, silk, artificial leather, regenerated cellulose, teal, duck and various papers" claims the Carothers patent. These bases for the coating can be in the form of sheets, filaments, fells, yarns or fabrics.

Nylon is the name coined for the chemical material which has been developed from Carothers' patent of 1938. Nylon stockings, are giving Japan headaches because they compete with silk stockings in looks, but possess superior wearing qualities, are the most recent form in which nylon is known to the public. Tooth brush bristles, fish line leaders, surgical thread for operations, and strings for tennis racquets are only a few other uses of this polyamide that is made from coal tar derivatives and comes basically from coal, air and water.

The polyamides used in this newest patent of Dr. Carothers is a combination of materials with jaw-breaking names. For some of his coatings, Dr. Carothers' patent describes the material as being composed of a mixture of hexamethylene diammonium adipate and decamethylene diammonium sebacate.

## BRITAIN'S FORCES TOTAL 2,510,000

PARIS (CP-Havas)—The British Expeditionary Force in France already numbers 300,000 men, according to Brig-General Edward Spears, president of the Anglo-French parliamentary committee.

Great Britain has 1,260,000 men under arms for home defence and another 1,250,000 enrolled in the B.E.F. Gen. Spears told a French audience. Timely conscription had enabled the British army to mobilize twice as many men in the early days of this war as in 1914, he said, and by October 250,000 British soldiers had crossed the English Channel.

He said 2,000,000 British women have volunteered for public war service, of whom about 600,000 are in uniformed services auxiliary to the fighting forces.

### Many Find Work

OTTAWA (CP)—Reports received from the provinces show that 5,414 young men and women from the Dominion-provincial youth training program were placed in employment between April 1 and December 31, 1939, according to a statement by Hon. Norman McLarty, Minister of Labor. During the corresponding period the previous year the total was 2,725.

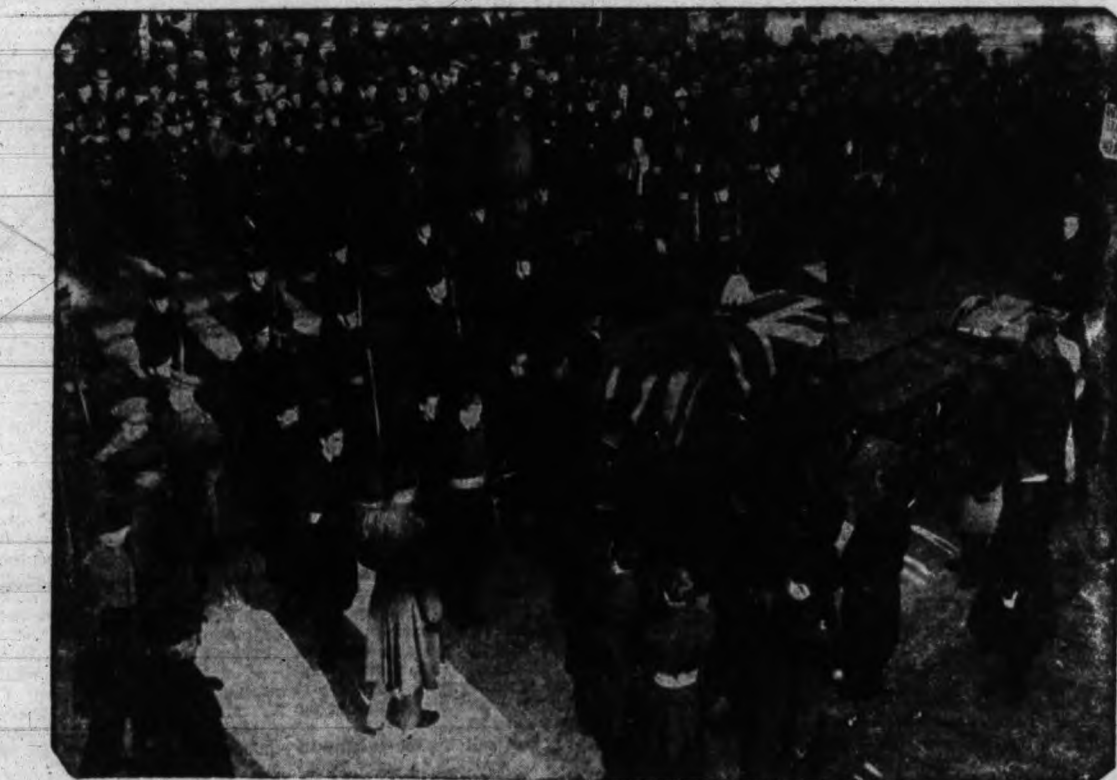

Up to December 31 last 642,914 days' training had been given to 33,405 unemployed young people between the ages of 16 and 30.

In addition, 4,652 young men last year took part in the national forestry program. Of these young men, 982 found employment.

### CON STANBURY WINS

LONDON (CP cables)—Conrad Stanbury of Winnipeg, receiving 14 points in each frame, today beat Walter Donaldson, Scottish champion, four frames to two, in the Empire Snooker Tournament. The scores were 53 to 67, 31 to 102, 66 to 58, 60 to 53, 80 to 63, 92 to 41.

That a frightened ostrich sticks its head in the sand is a very old belief, but science says it isn't true.

PAYS TRIBUTE TO MEMORY OF GOVERNOR-GENERAL—The guard of honor of the Royal Canadian Naval Volunteer Reserve presents arms as the coffin is taken from the gun carriage at Montreal to be borne to the railway car. On the flag-draped coffin, is the plumed hat of the Commander-in-Chief of the Canadian Military Forces, resting on his sword, a wreath of palms at the head.

## Bids Close in May For Giant Ships

WASHINGTON, D.C. — Bids for the construction of the two great trans-Pacific liners, which will be designed to be quickly converted into aircraft carriers, will be opened May 7.

The vessels will each be of 750 feet over all with a beam on the waterline of 98.2 feet.

Built for operation between San Francisco and the Far East, these luxury liners will have a displacement of 35,500 tons and will develop a speed of 24 knots. They will have accommodation for 1,000 passengers and will carry a crew of 500.

Cargo space will run to 535,000 bale cubic feet.

The commission called the design "unique," adding that construction of such ships had never before been undertaken in any country.

The convertible feature, the commission said, in no way detracts from their facilities for carrying passengers. With the exception of offset stacks, national defense characteristics are not apparent.

The hulls will contain 14 main water-tight transverse bulkheads with numerous additional water-tight and oil-tight bulkheads giving an extraordinary degree of subdivision in the event of collision.

Large holds forward and aft are provided with ample means for handling cargo through both hatches and side ports. Special provision has been made for carrying automobiles in an enclosed space on the forward deck.

## Ocean Timber Rafts Ruled Out

VANCOUVER (CP) — A suggestion made at Victoria by Lord Marley, deputy speaker of the House of Lords, that British Columbia timber could be shipped to the United Kingdom in rafts was described as "definitely impracticable" by local log operators and towboat men.

"The cost would be out of the question, even if the rafts could be delivered intact," said one logger who has been rafting logs from the Queen Charlotte Islands to low mainland mills for years.

The longest ocean tow of logs in the Pacific coast is from the mouth of the Columbia River to San Pedro, Cal., a distance of about 1,500 miles, but the trip is possible only at certain times of the year.

Logging operators said that moving at about three knots an hour, about average speed, rafts would take months to reach the British Isles, even if other factors were favorable.

"Towing rafts across the Atlantic would be a very different thing to towing them across the North Sea," said a tugboat operator. "Fuel would be another problem. A tanker would have to accompany the tugboat to maintain a supply of oil."

Lord Marley's suggestion recalled similar theories offered in the last war to move B.C. logs and lumber to the British Isles.

One of the most unusual plans was originated by the late John Arbuthnot of Victoria, who designed plans for a solid wooden ship powered by steam. On reaching its destination the ship would be taken apart and the lumber converted into the sizes required by the trade.

The Mexican Eagle Oil Company backed the scheme financially, but no ships were built.

## W. D. Buchanan Gets Transfer to B.C.

W. D. Buchanan of New York has been appointed to the post of assistant general passenger agent Canadian Pacific Railway at Vancouver, it is announced by G. Bruce Burpee, general passenger agent. He takes the post vacated by the death of G. H. Bowers.

Mr. Buchanan entered the company's service in Winnipeg in 1914, and was successively traveling passenger agent, and city ticket agent at Regina, being transferred in 1927 to the Los Angeles office, where he spent 10 years before being sent to New York in 1938 as assistant general agent.

Simultaneously the transfer of W. A. Lee, general agent at Los Angeles, to the post of assistant general passenger agent at Cincinnati, Ohio, will succeed Mr. Lee in Los Angeles.

## AMERICAN CAN INCOME

NEW YORK (AP) — American Can Company yesterday reported 1939 net income of \$18,284,064, after preferred dividend requirements and provision of \$1,019,721 for Canadian foreign exchange adjustment. This compares with \$13,645,000 in 1938.

## Around the Docks MEN OF RESCUE SHIP APPRECIATED AID

Jack Hunting, lightkeeper at Pachena Point, has received a message from the commander of the United States coastguard cutter Onondaga expressing thanks of himself and his men for the splendid co-operation of the men of the Canadian beach patrol in the rescue of the three survivors of the American sealer Varsity, wrecked with the loss of four lives at Tscowas, west coast of Vancouver Island, on the night of February 7 last.

The text of the message, which has been forwarded by Lightkeeper Hunting to Col. A. W. R. Wilby, agent for the Department of Transport here, reads:

"Sincerely appreciate co-operation of D. F. (direction finding) station, lightkeepers, linemen, beach-patrol and others who assisted us Wednesday and today. Last night's vigilance and signaling with hand lamp was invaluable. We were fortunate to have worked with such an efficient and alert group of men."

Signed commanding officer, officers and crewmen of U.S. coastguard Onondaga.

The reference to the hand signaling, apparently, had to do with the work of Lightkeeper Hunting who used an acetylene hand light on the beach to flash signals to guide the rescuers navigating a lifeboat from ship to shore in the stormy darkness.

## War Stopped Retirement

The war interfered with the retirement plans of David G. R. Smith, chief engineer of the Canadian Pacific liner Empress of Canada. When Mr. Smith left this coast on the Empress of Canada's last outward trip to the Orient, he expected to leave the sea for good on the completion of the homeward voyage. His ship, however, was commandeered for other service, and Chief Engineer Smith is remaining with his ship indefinitely.

## KING LEARNS OF MERCHANT FLEET

LONDON (CP) — A detailed picture of the condition of British merchant shipping was given the King today when, in his capacity as head of the merchant marine, he paid a visit to the new building housing the Chamber of Shipping in the city of London.

The King, who wore the uniform of Admiral of the Fleet, was received by Robertson F. Gibbs, president of the chamber. Sir Philip Haldin, vice-president and chairman of the building committee, and Sir Vernon Thompson, former president.

His Majesty asked many questions showing his keen interest in shipping matters and examined records and charts listing British shipping losses since the beginning of the war. He was informed of the corresponding records at the Shipping Ministry of the new construction underway to offset these losses.

The King went on a tour of the offices and, among others, talked at length with F. A. Hogg, chief clerk at the chamber and an expert on tramp shipping affairs.

His Majesty was particularly interested in the work of the charter committees and in the new form of charter just drafted for the requisitioning of ships by the Admiralty and another form of charter used for Welsh colliers.

He shook hands and chatted for a few moments with Petty Officer S. H. Chapman, acting as porter at one of the doors. Chapman, who volunteered to return to the navy at the beginning of the war, was on leave and returned to his old post for the day in order to see the King.

## Lifeboat Crews of Britain Praised

LONDON (CP) — Congratulations to British lifeboat crews for saving more than 15,000 lives since war began were sent the lifeboat service today by Sir Archibald Carter, permanent secretary of the Admiralty. Speaking for the navy "as from seamen to seamen," he praised the "exemplary courage and endurance without fear or thought of self" shown by the men.

## GAS AND OIL PRODUCTION

OTTAWA (CP) — The Dominion Bureau of Statistics reported yesterday Canada's production of crude petroleum and natural gasoline in December totaled 502,820 barrels compared with 489,423 in the same month of 1938. Alberta wells produced 455,618 barrels.

Production in Canada during 1939 amounted to 7,837,503 barrels compared with 6,965,457 in 1938.

## CHARTER PLAN FOR ORIENT SHIPS

WASHINGTON (AP) — American President Lines of San Francisco and American Mail Line Limited, of Seattle, yesterday submitted to the United States Maritime Commission proposals for charter of six vessels of the Puget Sound Orient Line.

American President lines bid \$12,343 per month for each of the six vessels.

American Mail Line bid \$2,880 each per month for the Capillo, Collinsworth, and Sataria, \$2,885 per month for the Coldbrook and \$3,170 each for the Crown City and West Cusseta.

American Mail made a claim for preference on the ground it formerly operated a similar service on the same trade route and that its company now is in the process of reorganization.

In asking for bids on the Puget Sound Orient Line, which operates from Seattle to the Far East, the commission specified 20 to 26 outward sailings a year from Seattle, and one or more ports in the Puget Sound to one or more ports in Japan, China, and the Philippine Islands, with the privilege of calling at ports in Pacific Canada, Manchuria, Hongkong, Indo-China and Siam.

## Welles Needs Skill in Europe

By ANDRUE BERDING

WASHINGTON (AP) — Sumner Welles, United States secretary of state, who will sail Saturday for an exploratory trip to Europe on behalf of President Roosevelt, apparently will require much skill in visiting the leaders of the four big western powers.

On the basis of reactions coming in to the State Department from Rome, Paris, Berlin and London, some officials forecast Welles' reception about as follows:

ROME — A warm-hearted welcome. Mussolini wants peace in Europe without total victory by either side, so that he can hold again a balance of power. He also will call Welles' attention to the fact that Italy herself has certain claims, especially against France, that should be taken into account in any peace.

PARIS — Warm welcome. France is confident of the Roosevelt administration's sympathies toward the Allies. But Premier Daladier may feel the time for a peace move has not yet come. Is Germany ready at this time to accede to the war aims stated by Daladier — a free Poland, a free Czechoslovakia, a free Austria?

IN GERMANY — An ostentatious welcome. But two questions must be asked Welles before Adolf Hitler or Foreign Minister von Ribbentrop opens up on the subject of peace. One is whether the United States will send an ambassador to Berlin in the near future. The other is whether the visit means a change in Mr. Roosevelt's apparent anti-Nazi sentiments.

Officials here say they know of no move to send an ambassador to Berlin.

Germany is thought here to be willing to talk peace while she holds the territory she has acquired in the last two years.

LONDON — A cordial welcome. But, as in France, a wariness in talking of peace while the blockade of Germany is just beginning to have its effect.

Welles is being sent to Europe, Mr. Roosevelt said, to gather information. Besides obtaining economic, military and political data, it is generally expected he will seek the ideas of the respective leaders about peace prospects, what they want from peace and whether there is any common meeting ground.

Mr. Roosevelt's announcement said the statements of officials of other governments to Welles would be kept in strict confidence. It is believed here this will prevent him from enacting the role of a mediator.

## To Train for Navy

Detachment of Royal Canadian Naval Volunteer Reserve officers will leave Victoria and Vancouver February 28 for Kingston, Ont., where they will attend H.M.C.S. Stone Frigate, affiliated with Royal Military College. They will receive an eight-week advanced course of training for their duties as officers.

## Egg Prices

These prices are obtained daily from the office of the Dominion Government Poultry Products Inspection Service, Victoria, B.C.

To producer, delivered cases returned:

Bank of Nova Scotia, 3 per cent payable April 1 to holders of record March 16.

## Wheat

WINNIPEG (CP) — A firm trend persisted through dull operations on Winnipeg Grain Exchange today and wheat futures prices closed unchanged. Strength on United States markets accounted for slender support.

May was quoted at the close at 85½, July 87 and October 88½.

A United States report that three to five shipments of American wheat had been sold to Russia caused a light buying wave in the southern trade.

The report, unconfirmed here, said the wheat would be shipped to Vladivostok from Pacific coast ports.

Export trade was light. A New York report that 150,000 bushels had been purchased for overseas could not be confirmed.

Trade in the coarse grains pit produced some investment buying in oats and barley, but flax and rye was neglected. The price range was steady.

Cash grain volume was small with a few transactions reported in Nos. 2, 3 and 4 northern and Nos. 1 and 2 Garnet.

## Specialties Advance

NEW YORK (AP) — Traders continued to ride with rallying specialties in today's stock market although recently lagging leaders managed to pick up a little patronage.

Dealings, fairly active in the morning, slowed as the proceedings neared the end. Transfers were around 700,000 shares.

Brokers attributed the better action of the list mainly to the heavy flow of cheering earnings statements which aroused hopes that lately faltering business and industry would regain balance by April at least. National politics and the confusing European conflicts again were seen as market deterrents.

Low-priced stocks remained in the popular divisions, accounting for the largest percentage of the day's turnover. Touching new 1939-40 tops—some eventually slipped—were Studebaker, Loft, Cluett Peabody, Martin-Parry and Brooklyn-Manhattan transit preferred.

Up at one time or another were Bethlehem Steel, Chrysler, Montgomery Ward, Goodyear, Third Avenue Railway, Nash-Kelvinator, Certaintec, Pathe, Twin Coach, Celanese, Celotex, Murray Corp., American Smelting, Packard, Continental Motors, Great Northern, Westinghouse, International Paper preferred, DuPont and Bendix.

Aircraft retreated after a good start, and most rails, rubbers, oils, coppers and utilities shifted narrowly. U.S. Steel was backward.

(By H. A. Humber Ltd.)

Dow Jones averages closed today as follows:  
30 Industrials 148.43, up 0.10  
20 rails 30.91, up 0.09  
15 utilities 24.91, up 0.12  
Total sales—750,000.

## Calves Gained Weight on Vitamin D Food

When calves can be out in the sunshine a great deal of the time, they are guarded from rickets, or bone trouble of the sort. If they do not have enough sunshine, or Vitamin D food, they will not grow into strong, healthy cows.

Those points were brought out by tests of 24 Holstein calves which were obtained for tests at the age of three weeks. They were divided into six "lots" of four calves each, and special treatment was given to each lot.

This calf had little sunshine and was fed no Vitamin D for seven months.

All the calves were fed whole milk at first, later skim milk. At the end of 10 weeks they received linseed middlings, calcium flour and salt. Some calves were fed nothing else, but two lots were given cod liver oil, and two lots were fed on tomatoes.

Most of the calves were kept in box stalls, away from sunlight for a period of nine months. Those which had no sunshine and no cod liver oil gained an average of only 188 pounds.

Two groups of calves were allowed to run in the sunlight and they gained an average of 455 pounds. Half of the eight "sunlight calves" were fed tomatoes as an extra and they gained 19 pounds apiece more than those without tomatoes. On the other hand, tomatoes did not help the growth of the calves which were kept out of the sunlight.

The calves which gained the most of all were those given cod liver oil, which contains Vitamin D. They had been kept out of the sunshine, but they made a gain of 543 pounds apiece!

That test would seem to prove that cod liver oil can take the place of sunshine for calves. This is important for farmers who raise cattle in regions where winter days are short and where calves may not have enough sunshine.

The calves which had neither sunshine, or cod liver oil suffered stiffness of joints and could hardly walk. One was highly bow-legged at the end of the test. Those troubles were plainly due to their not having had the Vitamin D which either the oil or the sunshine could have given them.

Some farmers are now using cod liver oil in their feeds for livestock, also for poultry. Many others are feeding calves yeast powder which has been exposed to ultra-violet rays. The dry powder is mixed with other food and gives the animals a fine supply of the Vitamin D which they need for good growth of bones.

## HOROSCOPE

Friday, February 16

Benefic aspects are active today. The morning hours are promising for labor, but later there may be a veering of good luck as world events affect employers. News that is promising for men who direct industry is forecast.

The stars favor the heads of families who may profit through new contracts or unexpected promotions. The moon enters Gemini, a sign changeable, masculine, commanding in influence. It is not an auspicious rule of the stars for romance. Men may be critical and able to see character defects in the loveliest girls. The date is fortunate for study and improvement; it should benefit young members of the family. The afternoon may be disturbing. Nervous tension should be avoided.

Stock market fluctuations may be frequently disconcerting in coming weeks, but business should be fairly good. Lumber dealers and builders should prepare for considerable home construction in the spring. Designers and importers of clothing should profit, for both men and women will pay more attention to dress and fashions than since the outbreak of war.

Criticism of office holders will be widespread as the national party leaders push their campaigns. The cost of war and government will be heatedly discussed. Growth of railway costs, instead of shrinkage, will cause dissatisfaction.

Neutrality puzzles will embarrass the United States. The Nazi press will continue to attack the

ANSWER: Although popularly called "French telephones," this type was invented and first used in America.

## Dorothy Dix's Letter Box

DEAR DOROTHY DIX—We have a family of five children. Four of them are very fine, co-operative and considerate of others. The other child, a girl of 14, is very aggressive and ambitious. She has no inhibitions about anything and apparently little sense of right and wrong. Somehow she manages to get the best of everything and dominates the others, and she has always been that way since she was a baby. How can I protect the other children against this ruthless egotist? And what can we do for the egotist? All of us know families who have been crushed by a dominant brother or sister and have wondered how it happened. Do you know the answer to my problem.

PUZZLED MOTHER.

ANSWER: No, I don't. I doubt if anybody does. Some people just seem to be born go-getters, determined to take what they want of life regardless of the rights or feelings of others. They are strong and they trample down the weak without mercy. They are conscienceless and they have no regrets for the sufferings they inflict upon others. The only person they ever love is themselves.

Evidently your daughter belongs to the female dictator type and at 14 it is too late to change her. Possibly you might have made her less selfish if you had started making her play fairly with the other children when she was a baby, but I doubt it. Nature would have been too strong for you. The only thing you can do is to try to protect the other children from her ruthlessness as much as you can.

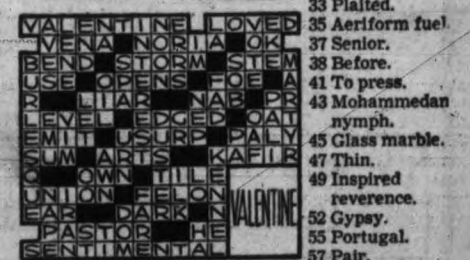

DOROTHY DIX.

## Warn Near East Of War Danger

ISTANBUL (AP)—The French language newspaper, La République, which often reflects official opinion, asserted today that the peoples of the Near East must prepare for a possible spread of war through this region.

Although it said war seemed unlikely here for the moment, it added that "it is only natural that peoples who value their health pay attention to the probability of its eventual coming."

Although the war's present centre is the western front, it said, "the real object of the war is being constituted by countries and nations which Germany considers part of her 'Lebensraum' (living space)." These countries and nations virtually are in the orbit of the war even though it is not yet their turn.

Some newspapers reported that a submarine being constructed in Germany for Turkey had been seized and added to the German navy.

Rumania, Iraq and Iran (Persia) were mentioned by the Turkish press as countries which might be the object of a German or Russian attack or be caught in the middle of the struggle between the Anglo-French and Russian-German combinations.

La République said it was up to all Near Eastern countries to prepare for any eventuality, as Great Britain and France are doing.

ing in this region. The Allies have concentrated forces in the Near East estimated at about 570,000 men.

The usually well-informed Turkish newspaper Son Telegram declared: "Toward the end of March and the beginning of April events are going to precipitate themselves."

"We do not know," said the Son Telegram, "whether the U.S.S.R. is proceeding with her fortifications on the Caucasus frontier with the object of placing her coast and petroleum regions in a state of defence, or whether she intends to use the point as bases for attack."

### GERMAN OPINION

BERLIN (AP)—Diplomatische Politische Korrespondenz, a semi-official organ usually reflecting the Foreign Office attitude, on the arrival Monday of Australian and New Zealand troops in Egypt and the welcome extended to them there by Dominions Secretary Anthony Eden, today said:

"The assignment to be given these troops has not been stated by Eden or otherwise made public, but the use made of New Zealand troops in the last war betrays the direction of their contemplated thrusts—it is in the southeast."

The commentary charged that the plan to be carried out if circumstances become opportune is to make the Allied guarantees to Rumania and Greece and the alliance with Turkey a pretext for attacks and so create an eastern front.

In matching bells, some makers consider not only tones and overtones but also "personality."

## Raps Government On War Contracts

Bitterly criticizing the King government for failing to explain some of its war contracts, and lashing out at the C.C.F. for its stand on the war, Frank S. Cunliffe, Conservative, opened his campaign in the southern part of Nanaimo riding with an address at Alex Hall, Burnside Road, last night.

Tracing back the events since war broke out, Mr. Cunliffe told how Hon. R. J. Manion, Conservative leader, had offered to sink all differences to make prosecution of the war most effective.

Mackenzie King persistently talked about unity in Canada, stressing it even above prosecution of the war. How could unity in the country be preserved by return of only one party to power, he said. Mr. King had not given any sign of even recognizing Dr. Manion's union offer.

Not once had Premier King called in Dr. Manion for confidential talks on war matters of national importance such as was frequently done with Opposition leaders in Britain.

Dr. Manion, he said, called off the truce because word came out that things were not right at Ottawa, contracts and appointments needed examination. It came to a head when the Ontario Legislature passed its condemnatory resolution. An explanation was promised for Parliament, yet none was given. The Premier had never uttered a word of defence for the government's actions, to which the country was entitled.

### COMPLAINS OF CONTRACTS

He listed the following charges to which answers were demanded:

Letting of airplane contracts to selected contractors on an extravagant cost plus basis, when the British government was letting them in Canada on a tender basis.

Giving contracts for planes that will be obsolete when completed, with no provision for cancellation.

Giving of a contract for munitions to a dummy company with no plant, the Interprovincial Equipment Company. (He suggested the company may have put in a blank bid that could be filled out at a figure one cent per unit below that of reputable firms.)

Leasing of a building that originally cost \$62,500 for an annual rental of \$23,700 for 10 years.

"If you vote the Liberals back after these things the country will get what's coming to it," he declared.

Mr. Cunliffe closed his address with an attack on the C.C.F. The C.C.F. theories of social changes could not possibly be an issue until after the war was over. The only position to consider was the C.C.F. stand on the war. The party's candidate had never made himself clear on the subject. But it was apparent the party as a whole was confused in its foreign policy, particularly since the Nazi-Soviet agreement.

"No one can tell you exactly where they stand now that Russia has invaded Poland and Finland," he said, challenging the C.C.F. candidate, to try and clarify the position.

"Does he stand with Canada and the Empire, or does he stand with Russia, condoning the things the Soviet are doing?" he asked.

### NO SOCIAL ISSUE

R. D. Harvey, first vice-president of the B.C. Conservative Association, declared the whole issue in the campaign was between the Liberals and Conservatives. The C.C.F. whatever favor they might have gained in local areas, had no standing as a national party. The C.C.F. attitude on the war, involving non-participation of Canada beside the Empire, despite the fact they urged Canadians to fight for the Socialists in Spain, clearly showed they were "out on the limb with the Canadian people."

Even J. S. Taylor, who may have sincerely wanted social reforms, had disowned the C.C.F. because Marxian Socialists had taken possession of the party, he said.

On the Liberal side, he charged Prime Minister Mackenzie King with violating constitutional rights by declining to let Parliament examine its war record so the people could judge.

"There would be something like a revolution in Britain if Parliament was gagged the way Mackenzie King has done it," he declared.

Mr. Harvey also charged the government with "half measures and inefficiency in prosecuting the war effort." He alleged a scandalous waste of time in not starting the air training scheme early last year when Britain wanted it.

A standing vote of tribute to the late Lord Tweedsmuir was observed at the suggestion of Percy Mickleburgh, the chairman.

Dr. C. H. Gundry, who will be the guest speaker tomorrow evening at the annual meeting of the Children's Aid Society, and will take as his subject, "The Place of Mental Hygiene in a Public Health Program." Dr. Gundry is a graduate of the University of Toronto. He has been engaged in psychiatry and mental hygiene since 1932, working in the Ontario hospital service and mental health clinics, and later in Cleveland, Ohio. The meeting will be held in Spencer's dining room, commencing with dinner at 6:15. Brief reports will be given covering the work of the society and the juvenile court.

## Canadians Are Finest Pilots

Sir Ernest Petter, pioneer in the manufacture of diesel engines in Great Britain, who is now living in retirement at Comox, thinks "the British have the best planes in the world and Canadians are the best pilots."

"Our unilateral disarmament under Ramsay MacDonald—put us four years ahead in airplane construction," Sir Ernest said this week in Victoria, where he comes frequently on business.

"From the time a machine is designed on the drafting table until it is in full production takes four years," he explained, "and at the beginning of the war we were ahead of the Germans to that extent because nearly all our planes were of new design."

"The stress of war would speed up the construction of new designs by perhaps a year but we are still ahead of them, particularly in speed."

"Canadians make the best pilots because they are mechanically inclined and have individual initiative. When English boys of the class from which pilots come are being driven round by a chauffeur the Canadian boy is taking apart a \$50 car to find out how it runs. He knows all about the car as well as how to drive it. And it is the same with the plane he flies."

Sir Ernest, who for some years headed a firm making planes for the war office, said, however, British fliers "think fast and act as quickly, which gives them great superiority in the air. Their very recklessness is a great advantage in a flier."

## Young Speakers Contest Friday

The annual oratorical contest, sponsored by the Victoria and Lower Island Young People's Council, will be held on Friday, February 16, at 8 in Centennial United Church schoolroom.

K. C. Drury will present the Times Cup to the winner. The adjudicators will be Mr. Drury, chairman; Mrs. S. A. Tod and Rev. Norman Crees.

The program will be as follows: Piano Interludes, Jack Smith; Miss Eleanor Brooke, speaking on "The War and Its Effect on Business in Great Britain," from Centennial Y.P.S.; Len Cannon, Metropolitan Y.P.S.; "Act Now! Courage and Success," violin solo, Mrs. G. O'Brien; Phil MacDonald, First United Y.P.S.; Miss Mabel McCartney, Metropolitan, "Young People in Rural Alberta; monologue, A. Veales; Orval Bennett, Centennial, "Youth and Its Problems," and Miss Margaret Walker, First United.

The dates of the Drama Festival have been changed to April 2 and 3. Entries must be in not later than March 10.

### STRAWBERRY VALE

The women's auxiliary of St. Columba Church held their monthly meeting Tuesday at the home of Mrs. J. Munro, Tulip Avenue. Rev. S. J. Wickens addressed the meeting on the subject of "How We Should Keep Lent." The next meeting will be held at the home of Miss H. L. Milne, Portage Inlet.

The official board of Wilkinson Road and Garden City pastorate met in Wilkinson Road schoolroom Tuesday evening, Rev. W. Allan presiding. A. H. F. Stelek was elected delegate to the forthcoming presbytery and annual

## Start Course On Co-operatives

A three-day course open to the public on "Co-operatives and Credit Unions," will commence this evening at 8 in the Campbell building under the sponsorship of the Department of Extension of the University of British Columbia.

The course will continue tomorrow afternoon and evening and Saturday afternoon and evening. Under the leadership of A. S. MacIntyre and N. H. MacKenzie on loan from the Department of Extension of St. Francis Xavier University, Nova Scotia, and through the federal Department of Fisheries, the course will present a number of speakers on the subject of "Co-operatives and Credit Unions."

This evening's session will be opened by Mayor Andrew McGavin with H. L. Campbell in the chair. Mr. MacKenzie will speak on "The Value of the Co-operative Movement in the World Today," and a motion picture will be presented titled, "The Lord Helps Those Who Help Themselves."

Mrs. Nellie McClung will act as chairman of tomorrow afternoon's session to start at 2:30 and five speakers will be heard. They will be H. D. Patterson on "Co-operative Housing"; F. L. Hudson, "Co-operative Medicine"; P. Rayment, "Gasoline and Oils"; Captain F. Livesey, "A Fruit-growers' Co-operative," and Mrs. K. McAllister on "Other Co-operative Activities." Mr. MacIntyre will lead a discussion.

Tomorrow evening's meeting at 8 will be opened by an address by Bishop John C. Cody, and R. F. Williams will speak on "A Group Health Insurance Scheme"; E. K. DeBeck on "How to Organize a Credit Union Under the B.C. Act," and Mr. MacIntyre on "Credit Union, a Basis for Co-operative Movement."

Saturday afternoon's session at 2:30 will hear Mr. MacIntyre on "Study Groups—Their Organization and Operation" to be followed by a discussion period and questions. Other talks will be heard on "Duties of Directors," and "Details About Credit Unions." Dr. Olga Jardine will be chairman.

In the chair during Saturday night's closing session will be Dr. Allan Peebles. A speaker to be announced later will give an address on "A Producers' Co-operative." Dr. Peirce will speak on "A Local Consumers' Co-operative—The Co-operative Consumers' Society of Victoria." J. R. Scooby will talk on "Local Credit Union Groups," and Mr. MacIntyre will speak on "Consumer Co-operatives."

### 100 YEARS OLD

The co-operative movement was initiated about 100 years ago and has spread over most parts of the world, growing rapidly in today's economic order.

Co-operative organizations are of three main types, namely: Producer co-operatives operated chiefly by farmers and fishermen for the purpose of marketing their produce to better advantage; consumer co-operatives operated on the Rochdale Plan for the purpose of buying goods and services and returning any net surplus to the producer, and credit unions, in which the members pool their savings and lend to those members who require money, at reasonable rates of interest.

In Canada the co-operative movement has been given a great impetus by the work of St. Francis Xavier University from where the leaders of the course come.

The course to be presented is the result of the co-operation of the Department of Extension of the University of British Columbia, the leaders, and a local committee representing the following organizations: The Victoria Council of Women, the University Extension Association, the Co-operative Consumers' Society of Victoria, the Kyoquat Trollers' Co-operative Association, and credit union groups from Gordon Head, the Catholic Church and the Federal Civil Servants' Federation.

## Saanich Board Starts Estimates

The Saanich School Board last night held a preliminary discussion over 1940 estimates, which will be prepared in draft form for the regular meeting next Wednesday night.

The board this year is confronted with the necessity of extra expenditures for industrial arts in the general broadening of education facilities required by the school curriculum. In addition, certain repairs are considered necessary by the building and grounds committee.

The board next week will consider these matters when it starts on the draft, and it was indicated conference, with N. McGillivray as alternate.

last night every effort would be made to keep the budget within the 1939 figure.

## BRITISH-ISRAELITES

The First Baptist Church was filled to capacity on Wednesday night when the Rev. E. J. Springett, Dominion commissioner, gave the second of his addresses on "Why Britain Will Survive." Adjutant Watt of the Salvation Army was in the chair.

Once again Mr. Springett emphasized the fact that this war was a struggle between ourselves and the forces of evil arrayed against us. Great Britain was the one bulwark of Christianity left and if we go down then the whole of this continent will be in danger with the rest of the world.

In spite of those who predict the end of the Empire, Mr. Springett emphatically asserted Britain will survive. "Because of God's covenant with Abraham whose seed we are; because we have been redeemed by the sacrifice of our Lord. We are passing through the time of Jacob's trouble, but we shall be saved out of, not from it, and we have it in our power to minimize our punishment by repentance, individually and nationally, and our willingness to co-operate in the bringing into being the Kingdom of God on earth," said the speaker.

This is the greatest Empire the world has ever seen and it will endure because God has said it would. But we must not trust in our own efforts, we must implore God's help and remember it is always He who won our battles for us.

Terms that have been bandied for identification when they were in northern Labrador have been observed from place to place, and it appears that their round trip flight carries them 20,000 miles across the Atlantic to Europe, south along the African coast to the Cape of Good Hope, to Antarctica and back.

## Bogged Down?

**FRESH YEAST** to help digestion  
**VITAMINS** for vitality

Let them **BOTH** help give you  
new vitality this winter

**Peppery? Pulled down by little digestive upsets?**

Then—try adding the new Fleischmann's High-Vitamin Yeast to your diet.

It's the vitamins and the fresh yeast together that make Fleischmann's High-Vitamin Yeast so beneficial, scientists say.

The fresh yeast stimulates sluggish digestive activity and speeds the assimilation of food. Laboratory tests have shown this action belongs to the yeast itself. It is entirely distinct from known vitamin action.

Let this Fresh Yeast  
give you **double** help

**Fleischmann's HIGH-VITAMIN YEAST**

Made in Canada

... now that it's sold  
in "Cellophane"!

"Squeamish? Well... I'll admit it! But there's always been something about the look of fish that gets me down—I confess I just used to hate shopping at the fish counter. And there's nothing our family likes better than a good fish dinner,—that's why I'm so thankful that now I can buy fish in 'Cellophane'."

"Fillets, steaks and other delicious fish cuts—in 'Cellophane' they look so clean and fresh it just makes shopping a pleasure. And do they taste good? Why, I do believe we're eating twice as much fish as we used to, now that I can get it put up in this sanitary convenient way."

"And fish in 'Cellophane' makes my ordering easier. The fillets we like have their brand printed right on the package. All I have to do is ask for fillets by brand name and I am sure of getting the kind I want."
